VERDUGO PLANS MEET PROTEST

DATE OF FEBRUARY 17 FIXED FOR HEARING OVER SEWAGE DISPOSAL PROPOSITION

MAJORITY IN FAVOR

LINE OF PROPOSED DISTRICT CAUSE OF OPPOSITION ON PART OF MINORITY

Hearing of protests against the proposed formation of a municipal improvement district in Verdugo Woodlands was set for the night of February 17 at a meeting of the board of city trustees held last night.

Seventy-seven registered voters in the proposed district have petitioned the board to form the district for the purpose of voting bonds to secure a sewage system. There are ninety-nine registered voters in the proposed district, it is stated.

Last night a protest against the lines of the proposed district was filed with the board, being signed by nine of those living within the territory, with the explanation that an owner of large acreage within the confines, who was not named, would also like to protest at the proper time.

Proposed Date Is Set

The board, after some discussion, decided to set February 17 as the date for hearing the protest. Should the protest be overruled, it is probable that the election date will be fixed for March 17.

Charles L. Chandler, as president of the Verdugo Woodlands Improvement association, a week ago last night appeared before the board of trustees and filed the petition, signed by seventy-seven persons, asking that the improvement district be formed, and the details were published in The Evening News the following day.

It is proposed that the city of Glendale shall bear the cost of the disposal plant and, judging by individual expressions of members of the board, the plan as outlined meets with approval. It is possible, however, that the protestants, at the

POET AT DINNER

J. W. FOLEY OF PASADENA TO BE GUEST OF HONOR AT AFFAIR FOR C. OF C.

J. W. Foley, poet and philosopher, of Pasadena, will be a guest of honor at the first annual dinner of the Glendale Chamber of Commerce next Monday night.

Mr. Foley, whose poems appear frequently in the magazines as well as newspapers throughout the country, is declared to be one of the most charming of characters. He is a great favorite with Chambers of Commerce, Rotary club and other civic bodies throughout southern California. He is coming to Glendale as the special guest of the Citizens' Campaign committee and will, besides making a short address, read some of his own poems suitable to the occasion.

RECENT REMOVALS

NUMBER OF CHANGES MADE DURING LAST FEW DAYS IN RESIDENCES HERE

Among recent moves in Glendale were the following:

S. D. MacOsker from 316 East Cypress avenue to 126 Franklin Court; J. G. Campbell from 422 to 412 East Harvard; W. W. Atchley from 1210 East Lexington Drive to Dayton, Ohio; A. S. St. John from 374 Salem to 129 South Cedar; C. E. Day from 511 East Harvard to 130 South Belmont; F. O. Hickman from 718 South Brand to 521 Patterson avenue; N. A. Hodges from 521 Patterson avenue to Hollywood; W. O. Lusk from 1201 Mountain to 325 Milford; E. S. Calvert to 316 East Cypress; L. D. Lourey to 523 East Maple; C. G. Yarbrough to 216 South Louise; W. G. Carrell to 1211 South Central avenue.

NEW SPECIES OF ORANGE

RIVERSIDE, Jan. 29.—A new species of orange, a cross between the Washington navel and the tangerine, after ten years of experimenting has been perfected by S. W. Edwards, manager of the Whitney estate at Booklin, near here.

Parking Time Law For Machines In Business District Is Proposed

If, after an investigation, conditions warrant, an ordinance controlling automobile parking on Brand boulevard and Broadway in the business sections of the city will be adopted by the board of city trustees.

This was indicated at the meeting of the board last night when a motion by Trustee Robinson, seconded by Trustee Bartlett, that the city manager and the city marshal make an investigation and report, prevailed.

At the meeting of the board a week ago last night a communication was read from F. M. Riley complaining of the parking of automobiles in a certain portion of the business section.

At that meeting Chairman Stephenson announced the city had no ordinance governing this matter and Trustee Robinson suggested that one be drafted. No action was taken, however.

Last night Trustee Robinson urged that the city manager and the city marshal make an investigation with a view to reporting on an ordinance governing a parking time limit and his motion was carried.

Protests Are Being Heard

During the discussion it was stated by members of the board that protests are being made against the leaving of automobiles standing all day in the business section of the city.

It was said that, in certain sections, cars are left standing against the curb for hours at a time and people seeking to park their machines against the curb and trade with business houses are unable to find room and, consequently, are forced to drive on, or leave their cars at a distance from where they wish to trade and walk.

Judging from expressions of the trustees, it is probable that, if the report of the city manager and the city marshal warrants, the city attorney will be instructed to draft an ordinance regulating the parking of cars in the business section, fixing a time limit.

DOUBLE ELECTION

CHARTER VOTE AND THAT ON PROPOSED BOND ISSUE TO BE TAKEN MARCH 29

Two special elections will be held in the city of Glendale on the same day, March 29, it was decided by the board of city trustees, following an opinion given by Hartley Shaw, city attorney, at the meeting of the board last night.

One election is for the approval or rejection of the proposed city charter submitted by a board of freeholders, of which Bert P. Woodard is the chairman.

The other election is a bond issue for $275,000 for the further improvement of the city's water system and the installation of a civic center, including three parks, a swimming pool and other municipal improvements.

Each proposition will be submitted separately. The civic center proposition was carried at the general election held in November, but must be resubmitted because the bonds were not favorably passed upon as the result of a legal technicality.

City Is Saved Money

By holding the two elections on the same day, it is estimated by city officials that Glendale will be saved the sum of about $800 in election expenses.

The date of March 29 was fixed for the charter election by the board of freeholders as provided for by law. The trustees, by resolution, fixed the same date for the bond election after City Attorney Shaw gave it as his opinion there was no legal obstacle.

The resolutions calling the bond election and that of the charter were introduced by Trustee Bartlett.

Pamphlets containing the draft of the proposed charter are on file with City Clerk Sherer and those desiring copies may have them by applying to him. They are furnished free, as provided by law.

DRAWS PLANS FOR 3 BUILDINGS

Architect Alfred F. Priest of 1422 North Central avenue, is busy these days on plans for three buildings. One is a one-story, 8-room hollow tile residence at the corner of Jackson and Doran, for Harry E. White. It is to have concrete foundation, hollow tile exterior walls with stucco exterior finish, brick paved patio. The cost is around $8000. Another is a one-story, brick business building 107x115 at the southeast corner of Brand boulevard and Harvard for H. M. Butts. The third is a 10-room, hollow tile patio residence at San Gabriel.

BUDGET CHANGE IS AUTHORIZED

TWO FINANCIAL REPORTS OF CITY MANAGER ACTED UPON BY TRUSTEES' BOARD

MONEY IS AVAILABLE

DEDUCTIONS ARE MADE, THEN APPROPRIATED TO OTHER DEPARTMENT NEEDS

Change in budget appropriations for the city of Glendale's present fiscal year was ordered by the board of trustees in session last night, on recommendation of T. W. Watson, city manager, on motion of Trustee Bartlett.

At the meeting of the board a week ago last night, the city manager submitted a financial statement in which he recommended certain budget changes and last night he submitted a further report. Trustee Bartlett's motion, which unanimously prevailed, covered both reports.

The report submitted at the previous meeting has already been published in full in The Evening News. The city manager's recommendation filed at last night's meeting follows:

Deductions Are Proposed

"We would respectfully recommend the following adjustments in the budget appropriations for the present fiscal year:

"That the following deductions be made:

Advertising and promotion	$ 500.00
Inspection of water	215.75
Inspection of dairy milk	270.25
Collecting garbage	500.00
Care of parkways	400.00
Tree planting	600.00
Resurfacing streets	1,500.00
Street lighting	600.00
Total	$4,586.00

Appropriations Sought

"We respectfully recommend that the total of these deductions be appropriated as follows:

General administration	$ 900.00
Recorder's court	250.00
Quarantine and fumigation	250.00
General sanitary inspection	165.00
Public health nurse	300.00
Street cleaning	1,200.00
Tree trimming	200.00
Park benches	200.00
Playgrounds	250.00
Fire protection	121.00
Street supt.'s office	250.00
Street sprinkling	300.00
Flood control	200.00
Total	$4,586.00

Copies of the previous financial statement and that submitted last night had been furnished each member of the board for study before action was taken.

FOR RED CROSS

MRS. DAVID L. GREGG HOSTESS AT HOME, 240 N. CENTRAL, AT SEWING PARTY

A party of twelve ladies, including the hostess sewed for the Red Cross yesterday at Mrs. David R. Gregg's, 240 North Central avenue, from 10 until 4 o'clock. Three machines were kept going and with the hand sewing that was done, much was accomplished for the good cause.

Those attending were Mesdames Ann P. Bartlett, Lillian Dow, J. G. Huntley, E. U. Emery, Charles Farnham, W. W. Worley, Mabel Franklin Ocker, J. F. Torrey, H. G. Hosford and C. F. Parker, also Miss Brown, a newcomer to the city from Massachusetts, who was heartily welcomed by her hostess and the others.

A similar meeting is to be held at the same place next Thursday. All ladies wishing to help in this good cause are welcome. Bring sandwiches is the direction given. The hostess furnishes hot drinks.

7 BUILDING PERMITS ISSUED

Seven permits for buildings were issued yesterday, bringing the total for the month, so far, up to $125,583. Three of yesterday's permits were taken out by Chas. Winburn, for garages on lots he owns at 519, 523 and 531 Chester. He owns quite a block of lots there and builds garage residences for people needing homes, who will afterward erect houses on the front. Other permits were for a 3-room residence at 415 West Broadway for Geo. Schaffer, $1200; one of 2 rooms, $1000, at 1115 San Rafael avenue, for Henry D. Simons; a $200 addition to the residence of Mrs. M. Boettley, at 317 West Broadway; a garage at 1365 East Garfield avenue, for Fred L. Leiser.

GRADUATES ARE GIVEN DIPLOMAS

IMPRESSIVE EXERCISES HELD AT HIGH SCHOOL BEHALF MID-WINTER CLASS

HONORS ANNOUNCED

LESLIE B. HENRY SPEAKS ON 'QUALIFYING FOR SUCCESS'; AND GIVES ADVICE

Commencement exercises for the mid-winter senior class of the Glendale union high school were held last night in the school's auditorium.

At 8:15 o'clock the high school orchestra, under the direction of Mrs. Dora Gibson, began playing the processional, the march from "Aida." Graduates slowly marched in and took their places on the stage amid the applause of the audience, which crowded the auditorium. The class colors being red and white, the young ladies wore corsage bouquets of white sweet peas and red roses and the young men boutonnieres of red roses.

A very charming vocal selection was given by Miss Mildred Stanford, "Awake Little Flower" (San Souci).

Class Prophecy Is Made

Quite unexpected was the shrill ringing of a telephone on a table at one side of the stage. The telephone was answered by Miss Dorothy Woods and the conversation which followed was one supposed to take place some years hence. The party calling was a former classmate inquiring as to some of their fellow classmen. In this clever manner the class prophecy was made. And, if the prophecy comes to pass, many noble lines of endeavor will be greatly benefited by the addition of the graduates of the winter class of 1921.

At the conclusion of her telephone conversation, Miss Dorothy Woods

(Continued on Page 4)

PROGRAM PLEASES

EXCELLENT ENTERTAINMENT IS GIVEN TO EX-SERVICE MEN NOW AT THORNYCROFT

Wednesday night the disabled ex-service men at Thornycroft were treated to a program of music, dancing and readings which was of more than usual merit, and for which the men were very grateful.

The following program, which had been arranged by Mrs. Alex Mitchell of Glendale was enthusiastically received by the ex-service men:

Piano selections by Mrs. H. R. Boyer.

Readings by Miss Harriet Barnes.

Turner sisters of Los Angeles in Highland Fling and Irish dances, accompanied by Miss Gertrude Champlain.

Little Miss Pelley in Oriental dances.

Gould Moore in songs and dances.

Scotch Stories and Songs

Francis Henry, who is considered the Harry Lauder of Glendale, in Scotch stories and songs, accompanied by Mrs. H. R. Boyer.

Vocal selections by Mrs. C. A. Parker, accompanied by Mrs. L. N. Hagood.

Cecil May Fischer of Burbank in the Mirror dance.

Mrs. L. N. Hagood in pianologues, original compositions.

Mansford Barnes, saxaphone, accompanied by Mrs. L. N. Hagood.

Much credit is due Mrs. Alex Mitchell, who secured these talented people, whom, the boys say, were equal to professionals, and to Miss Pearl Keller, through whose courtesy the services of a number of her small pupils were secured.

The ex-service men were thoroughly delighted with the program and expressed the wish and extended the invitation that these folks come again.

GLENDALE WOMEN INTERESTED

Local people who are interested in the War Mothers' club of Los Angeles are Mrs. J. B. Sherwood of 357 West Broadway and Mrs. Samuel Dick of 130 North Orange street, both of whom were members of a committee appointed to visit sick and convalescing ex-service men at Golden State hospital in Los Angeles Wednesday of this week. This organization, which is yet in its infancy, is composed of mothers of men and women who took part in the world war. Mrs. Dick of Glendale is the corresponding secretary and Mrs. Sherwood, treasurer, of the Los Angeles organization, which now has over thirty members.

DEFENSE HAS SURPRISE IN PEETE CASE

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 28.—The defense in the trial of Mrs. L. Louise Peete, on trial for the murder of the wealthy Jacob C. Denton, sprang a surprise today and dealt a blow at the prosecution's case when admissions, admittedly in favor of the defense, were made on the stand by Mrs. Ida L. Gregory of Denver, so called "star" witness for the state.

Under cross-examination, Mrs. Gregory, who formerly was one of Mrs. Peete's closest friends, ripped some strands of what the state claims is a conclusive net of circumstantial evidence that Mrs. Peete killed Denton and hid his body. Striking points in favor of Mrs. Peete which were brought out by the cross questioning of Mrs. Gregory, follow:

That Mrs. Peete, on the day she is alleged to have murdered Denton, danced and sang and betrayed nothing unusual in her manner;

That on June 3, the day following the alleged killing by her, Mrs. Peete, her little daughter, Mrs. Gregory and little daughter Maude, attended a motion picture show which the defendant seemed to enjoy as much as the others;

That one night not long after Denton was slain Mrs. Peete and the Gregory woman returned to the Denton residence and found lights illuminating the house, which had been extinguished before they left.

KIDNAPED WIFE IS DECLARED TO BE SAFE

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 28.—O. S. Witherell, president of the Financial Loan and Investment Company, whose young wife, Gladys, vanished mysteriously Tuesday night from their Hollywood bungalow, has received a note assuring him of Mrs. Witherell's safety, according to a well founded rumor in circulation here today.

This report was given credence later when relatives and detectives working on the case went into secret conference, excluding newspaper men who previously had been informed of every development and clue.

Detective Nick Harris, directing private investigations, when asked concerning the receipt of such a note, said:

"If it had been, it would be obviously impossible to make the fact public. We must proceed carefully or endanger her life—if she is held by desperate criminals, as I believe she is."

MEXICAN OFFICIALS SAID TO BE AT OUTS

(Special Service to Glendale Evening News)

EL PASO, Tex., Jan. 28.—Reports reaching here today indicated Governor Arieta of the state of Durango, Mexico, and President Obregon are distinctly at "outs." Just what the points at issue are cannot be ascertained by officials here or in Juarez. No word had been received today regarding a reported attack by bandits on Americans in Durango mining camps.

GIVES JAPANESE POPULATION IN HAWAII

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 28.—The Japanese residents of Hawaii total 109,274, or nearly one-half the total population of 255,912, the census bureau announced today. The Japanese population of Hawaii has increased 29,599 since 1910, or faster than any other element of the Hawaiian population.

REDUCTION IN WAR DEPARTMENT ESTIMATE

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 28.—With a reduction in war department estimates of $699,275,502, the army appropriation bill carrying a total of $331,222,612 was reported to the house today by the appropriations committee. The appropriation is based on an army of 150,000 men.

RUSH MEN AWAY TO ESCAPE MOB VIOLENCE

(Special Service to Glendale Evening News)

MARION, Ark., Jan. 28.—Five negroes were rushed from the jail here to the state penitentiary at Little Rock today when it was feared they might become the victims of mob violence. They are suspected of having aided in the escape of another negro charged with the murder of two whites at Nodena, Arkansas.

NAVAL BASE COMMITTEE REPORT IS DUE

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 28.—Senator Ball, Delaware, member of the joint sub-committee selecting a naval base on the Pacific coast, announced he expected the committee's report to be completed and approved some time today.

SET SUM FOR RIVER AND HARBOR WORK

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 28.—Appropriations for rivers and harbor work during the next fiscal year were placed at $15,250,000 in a bill reported by the house appropriations committee today. Government departments had asked $57,000,000.

BOARD DECIDES TO OUST TREES

SOME REMAIN, OTHERS TO GO, IS DECISION REACHED AS RESULT OF INQUIRY

FORESTER REPORTS

URGES THAT CERTAIN ONES BE RETAINED; SUGGESTS PARK STRIP ON MONTEREY

Acting upon a report submitted by Frank A. Marek, city forester, who conducted an investigation at the suggestion of the board of city trustees, T. W. Watson, city manager, recommended to the board at its meeting last night the removal of trees in the roadway on Central avenue between Doran and Pioneer Drive, on Louise between California avenue and Lexington Drive and on Glendale avenue near the city reservoir. The board ordered the trees removed.

In reporting the result of his investigation to the city manager, the city forester said:

"In reply to your request for a statement regarding advisability of removing trees from roadways in Glendale, I wish to report that owing to the increased traffic and danger of automobiles skidding, the tree in the roadway on Louise street between California avenue and Lexington Drive and the one on Central avenue between Doran and Pioneer Drive should be removed.

Says Others Should Remain

"There are, however, a number of trees in the roadways which may in time become a menace to life and property that at present, owing to their location on streets that are little used, should be preserved.

"However, there is a copeing about the trunk of one of the best specimens in the city, located on Burchett street, near Pacific avenue. This copeing, owing to the peculiar location, can easily become the cause

(Continued on Page Six)

SOON TO OPEN

SHORT LINE HIGHWAY INTO GLENDALE TO BE OPEN ABOUT FEBRUARY 15

According to the city engineer's office, Los Angeles, the new short-line highway between that city and Glendale will be opened to through travel about February 15.

Considerable stretches of it are in daily use now. The only part not completed is a short stretch just south of Ivanhoe bridge, where this route crosses Los Feliz boulevard. That will be paved with concrete at once.

The contractors have until February 26 to complete it, but Mr. Drew, of the engineer's office, said that unless bad weather interferes to a considerable extent, all will be done by the 15th or sooner.

It is probable there will be a great deal of travel over the new route the first day or two, to "try out" the roadway.

ALMOST READY

HARROWER LABORATORY WILL SOON BE OCCUPIED; LIGHT METER IS INSTALLED

The new Harrower Laboratory, at 920 East Broadway, is almost ready for complete occupancy.

The electric light meter was installed the first of the week and the moving of equipment and supplies into the new building began at the same time. Some work is being done there now, though the interior finish of the rooms is not yet completed.

It is expected that everything will be in shape and the entire building occupied by busy workers about February 1.

LINEBERGER RECEPTION

Women from all parts of the ninth congressional district, of which the city of Glendale is a part, attended a reception held this afternoon in the Union League auditorium in Los Angeles in honor of Major Walter Lineberger, candidate for congress. Mrs. Florence C. Porter presided. Alfred L. Bartlett, chairman of the Republican county central committee, made a talk.

E. F. Kulp
Phone 172-J 205-A North Brand

No Better Investments in Glendale Today for Future Home or Speculation

$ 595 Burchett near Pacific $ 595
$1125 Isabel between Lexington and Doran $1125
$1350 Jackson between Lexington and Doran $1350
$1500 S. E. corner Isabel and Doran $1500

These are below value and we can prove it. Desirable residence lots are getting scarcer every day. If building material should drop, there wouldn't be any left in town. NOW is the time to buy lots.

PERSONALS

Mr. and Mrs. J. W. Fox of Burbank were the guests of Mr. and Mrs. M. M. Eshelman of 1247 South Maryland avenue Tuesday.

F. J. Runyon of 337 Hawthorne street has welcomed Mrs. Runyon, who returned home recently from Calgary, Alberta, where she was called by the illness of their daughter.

On the motion of Trustee Lapham, the board of city trustees in session last night, voted to instruct Hartley Shaw, the city attorney, to draft an ordinance providing for a city nurse at a salary of $75 a month. The matter was urged before the trustees by Trustee Bartlett.

Colonel F. McRublee, president of the Nebraska state society, states the next meeting of the organization will be held Tuesday night, February 1, in the Friday Morning club in Los Angeles. There will be a program and dancing and the state register will be there, he says.

Dr. P. S. Kellogg, 614 North Louise, has returned to Glendale after an absence of two months spent with his son-in-law and daughter, Colonel and Mrs. Von Scharck, at Ft. Leavenworth, Kan. Dr. Kellogg says he is more than pleased to get back to southern California.

Mrs. Anna Angell and son of Helena, Montana, who have been the guests of Mrs. Angell's sister, Mrs. Harry Scovell of 904 E. Lomita and are leaving Saturday for their home, were the luncheon guests of Mr. and Mrs. Samuel Dick of 130 North Orange street yesterday. Mr. Dick is their only cousin.

W. A. Blanchard of Burbank was a visitor in Glendale today. He is a strong supporter of Walter Lineberger, candidate for congress at the special election to be held February 15. He says that Major Lineberger's forces are growing every day and that the Republican nominee will be a winner.

Mr. and Mrs. Clarence Brown and daughter, Onieda, and Mr. and Mrs. Maurice Burke and daughter, Maurine, both of West Windsor Road, motored to Big Tujunga Sunday. Upon their return, Mrs. Brown served a tamale supper. They report that there is quite a bit of water in Tejunga canyon and also some snow.

Newspaper dispatches convey the information that resolutions calling for a continuation of the nation-wide probe of building material prices, started by the Lockwood committee in New York, were adopted at the meeting of the Associated Contractors of America, in session in New Orleans. This is of local interest because the meeting is being attended by Peter L. Ferry, contractor, of Glendale. Mr. Ferry left last Saturday for New Orleans to attend the convention of contractors.

Mrs. R. McLaughlin, 816 South Maryland, reports that a young man representing himself as a returned soldier called at her home after dark, secured her subscription to a soldiers' publication and, when she gave him $5 to get changed, he disappeared with the money. She states that others in her neighborhood have been visited by the young man and have given him money for subscriptions although, she says, she has since found out that the publication does not require advance payment.

Police headquarters was moved into the enlarged room provided for it, yesterday. During the remodeling of the old quarters by taking out a partition, all the business of the department was transacted in the city clerk's office, which was quite inconvenient for all concerned. The remodeled room will be occupied by the sanitary inspector, as well as the police department. The big front room upstairs was remodeled, also, by taking out all the partitions, leaving the city clerk's, city treasurer's and accounting departments all one big room.

John L. Circle of 410 West Park avenue, manager of the shoe department of a large store in Los Angeles, left at 10 o'clock this morning for New York and Boston to buy for the spring trade. Mr. Circle's management of his department has been highly commended by his employers and he is given a free hand by them. Mrs. Circle and the children are spending the winter in Bisbee, Arizona, with her mother, and The Evening News keeps them posted on Glendale happenings. Mr. Circle expects to be gone five weeks. On his return the wife and children will join him here and they will again occupy their own home, which is now leased.

The city of Glendale has received further advertising in the east, for a clipping received by The Evening News out of the Chicago Daily Tribune shows a picture and brief interview with Herman Schaeffer of Glendale, in which he gives southern California a boost. The Chicago paper is running a daily feature in which a reporter asks five persons, picked at random, a question. Their pictures and answers are printed. The question when Schaeffer was interviewed was, "Would you sooner live in a flat or a home of your own?" His answer, with the statement he was a resident of Glendale, Cal., was, "A bungalow in sunny California with trees and lawns blooming all the time, and, most of all, lots of pleasant sunshine. A flat, no. Why, you folks back here who are cooped up in flats all the time do not know what real freedom is."

Hats Re-blocked

PERSONALS

Yesterday's showers aggregated .10 of an inch rainfall, bringing the season's total so far to 6.97. Last season's record up to this date was 6.99.

Henry J. Brubaker, chairman of the Loyal Illinoisans, plans to care for over 1200 residents and former residents of that state at a meeting to be held Friday night, February 4, in Blanchard hall, Los Angeles. Former Governor F. O. Lowden of Illinois has been invited to attend. There will be a social hour, a program and a roll call of counties.

The page ad in today's issue of The Evening News is decidedly unique in one particular and that is that not one of the eleven business rooms represented in the ad had been completed six months ago. Another fact worthy of remark is that the three large buildings in which are located most of the firms represented by the ads were built by one construction company.

Paper Welcome Visitor

That The Evening News is a welcome visitor in the homes of citizens of Glendale and vicinity is evident from the fact that renewals and new subscriptions are coming into the office without the aid of a solicitor.

The Evening News is a daily newspaper for the people, and the many words of appreciation accompanied by cash in advance subscriptions is, indeed, encouraging to the publisher.

APPARATUS IN ARGENTINE

American manufacturers of electrical apparatus are offered an opportunity to extend their business in Argentine, as there are extensive water-power developments along the river La Plata, and it is a well-known fact that the electrification of every important industry in that section of the country will take place as soon as the main power houses have been completed.

INQUIRY INTO IOWA LANDS

The Iowa State Agricultural college and the United States Department of Agriculture have made an investigation of Iowa land which reveals that the price of land in many sections of Iowa is too high to justify returns. The average value of the state's farm lands increased $121 an acre between 1915 and 1920.

AEROPLANES FOR MEXICO

A report from Mexico City states that two commercial aeroplanes, the first to enter Mexico, left Texas en route to Mexico City. Commercial transportation by aeroplane is of great value in mountainous countries like Mexico.

The seventy-hour work week is common in Japan.

CITY TRUSTEES

OFFICIAL MINUTES OF BOARD PROVIDED BY MEETING HELD LAST NIGHT

The official minutes of the meeting of the board of city trustees last night follow:

The board assembled at 8:25 p. m. all members present. The minutes of the regular meeting of January 20, 1921, were read and approved.

A communication was read from R. H. Moulton company proposing to buy $20,000 worth of water and light bonds, at par and accrued interest. Referred to city manager.

Application from Mrs. Harness for permit to sell milk granted.

Communication was read from Stuart & Wheeler, agents for a pop corn machine, asking permission for one of their machines to stand on the sidewalk or parkway of one of the public streets, preferably at Broadway and Brand boulevard. Referred to committee of the whole.

Communication read from the State Law Enforcement league, accompanied by a proposed prohibition enforcement ordinance, suggesting the adoption of said ordinance by the city of Glendale. Referred to the committee of the whole.

Communication was read from the National Security league of New York, suggesting the observance of American day, which was ordered to be filed.

Communication was read from Endicott & Larson making a proposition to do the work in connection with making assessments in special assessment districts. Ordered filed.

Los Feliz Opening

The time having elapsed for the filing of protests against the opening and widening of Los Feliz Road, the city clerk stated that a number of protests had been received and the same were presented to the board. Referred to city engineer to check up and report.

Petition for Sewer District

In regard to the petition presented at a previous meeting of the board requesting the formation of a district in Verdugo Canyon for the construction of a sewer system, the city clerk reported that the said petition represented 15 per cent of the number of the total voters registered in the proposed district. Petition was ordered filed.

Demands

Demands were presented and referred to the finance committee, which reported favorably and on motion of Trustee Robinson the same were allowed and warrants issued in payment of same by roll call, all voting aye.

Against Being Included

H. B. Crocker and others presented a petition protesting having their property included in the proposed district, to be formed in Verdugo Canyon for sewerage purposes. Same was referred to the committee of the whole.

Communication from city manager on this subject was read and ordered filed.

City Manager Reports

The city manager reported in regard to the application of Mrs. D. F. McKinney for permission to remove a large pepper tree from the parkway in front of 1257 South San Fernando Road, recommending that permission be granted to remove the middle one of the three trees standing in that place. On motion of Trustee Robinson, recommendation was approved and permit granted.

The city manager presented a communication recommending certain adjustments in the budget appropriations for the present fiscal year. Action deferred.

City manager presented a report in regard to a meeting of the residents and property holders of the neighborhood at 634 West Broadway, on the 17th. inst. At the meeting referred to the fact was developed that the center line of West Broadway is not definitely fixed and cannot be exactly ascertained from present records. The manager requested the authority to have the necessary surveys made and a quit claim deed prepared and also to secure from a title company a list of names necessary to be obtained in order to effect conveyance to the city. On motion of Trustee Robinson, the recommendation of the city manager was approved and action ordered to be taken in accordance with the same.

The city manager presented a written report to the board in regard to conditions along San Fernando Road to the effect that it is advisable that some action be taken to provide for the sewerage disposal in that district. He requested authority to call a meeting of the residents and property owners in that district to discuss ways and means of relieving the situation. On motion of Trustee Bartlett, recommendation of city manager was adopted and it was ordered to be put into effect.

In regard to the offer of R. H. Moulton & Co., to purchase $20,000 worth of water and light bonds, the city manager recommended the acceptance of the same, and on motion of Trustee Henry recommendation was approved and it was so ordered, on roll call vote, all voting aye.

Grade Ordinance Presented

Trustee Henry presented an ordinance declaring intention to change, establish and re-establish the grade on a part of Brand boulevard, which was read and ordered to be laid over.

Bid of Banister & Day

The engineer of the public service department and the city manager in regard to bids for the installation of pipe line, pumping plant and 300,000 gallon reservoir referred to them at a previous meeting, recommended the acceptance of the bid of Banister & Day at a price of $19,466. On motion of Trustee Bartlett the bid was accepted by roll call, all voting aye.

The engineer of the public service department reported satisfactory progress on the Grand View avenue pipe line and the work of the new well and pumping house.

Opening Stanley Avenue

On motion of Trustee Henry ordinance previously presented to the board ordering the opening of Stanley avenue, was adopted as ordinance No. 420, on roll call, all voting aye.

Adjustment of Budget

In regard to recommendation of the city manager as to the adjustment of the budget for the public service department a motion of Trustee Bartlett was adopted favoring the recommendation and ordering that the adjustment be made as recommended in the communication of the city manager under dates of January 20 and 27, 1921.

Public Health Nurse

On motion of Trustee Lapham the city attorney was instructed to prepare an ordinance creating the position of public health nurse and fixing the salary attached to the same at $75 per month.

Trees in Roadway

The city manager recommended the removal of trees in the roadways and the city streets as follows:

On Central avenue north of Doran street; on Louise street between Lexington Drive and California avenue; on Glendale avenue opposite city reservoir. On motion of Trustee Henry it was ordered that recommendation of city manager be adopted and it was so ordered.

Small Pox Hospital

A motion made by Trustee Bartlett was adopted instructing the city attorney to prepare a resolution similar to the one recently adopted by the city of Alhambra, requesting the county of Los Angeles to take care of the smallpox cases occurring in the outside cities of the county.

Contract With Olmsted & Gillelen

On motion of Trustee Robinson it was ordered that the contract previously presented to the board with Messrs. Olmsted & Gillelen, sanitary engineers be approved and that the president of the board and the city clerk be authorized to execute same. In this connection the motion of Trustee Bartlett was adopted that the chairman appoint at his convenience a committee of twelve citizens provided for in the contract.

A motion of Trustee Robinson was adopted that the contract with the Los Angeles Manufacturing company for supplying 5000 feet of double dipped, double riveted steel water pipe, thirty inches in diameter, be approved and the chairman of the board and the city clerk directed to execute the same; the motion also included approval of the bond accompanying the bid.

Charter Election

Trustee Bartlett introduced an ordinance which was read and ordered

(Continued on Page 4)

RETURNS TO CITY

G. D. MASON, FORMER RESIDENT OF GLENDALE, IS AGAIN HERE; TO BUILD HOME

G. D. Mason, who has just bought P. E. Dowd's restaurant and bakery at 134 South Brand boulevard, is an old Glendalian, just coming back home.

Four years ago, just after he had built himself a home on the rear of his lot at 327 West Broadway, a good business opening called him to San Pedro, where he opened a confectionery and soft drink parlor.

Recently he sold this and returned to Glendale, building a $2500 garage home on a beautiful lot he owns at the corner of El Rito avenue and Bonita Way, Selvas de Verdugo.

More than 100 trees cluster in one corner, which is crossed by the sparkling brook which contributes to Glendale's supply of pure water.

Plans to Build Fine Home

Mr. Mason plans to build a handsome home on this lot some day and also contemplates erecting, in the near future, an apartment house on the front of his West Broadway lot. It is his plan to enlarge the business he bought of Mr. Dowd by adding confectionery and soft drinks.

The many old friends of Mr. and Mrs. Mason are glad to welcome them back to Glendale.

Why Your Dentifrice?

25¢

YOU use a dentifrice to keep your teeth white—to give health to the gums, and cleanliness and comfort to the mouth. Dentists say this is all any dentifrice can *safely* do. And *this* is what Klenzo Dental Creme accomplishes perfectly. The dentifrice *famous* for its lingering Cool, Clean; Klenzo Feeling. Get a tube today.

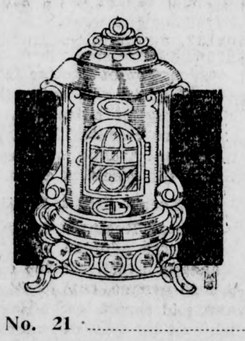
A Heating Stove That Really Heats



Some stoves eat—yes literally eat up fuel and it's generally because of faulty construction that many stoves require so much fuel to give a fairly good heat. Our Favorite heater is economical on fuel, yet it gives an abundance of heat—and that's because it's rightly designed and carefully joined so that it is practically airtight. This stove has been placed in many homes and is giving entire satisfaction. Come in and let us show you the various sizes.

AMERICAN SHIPMENTS HELD

Twelve million dollars' worth of American merchandise is held in the port of Buenos Aires, according to a report received. This is due to the drop in prices, as 95 per cent of the merchandise held was bought some time ago and now with the reduction of prices which amounts to from 40 per cent to 50 per cent, the merchants to whom this merchandise was consigned have refused to accept the same.

Several American concerns have undertaken to sue the merchants but so numerous are the claims that it would be almost an impossibility for them to obtain a satisfactory decision, especially since it has been predicted by the best known economists of the country that in the readjustment of conditions since the war, in case of adverse decisions on these claims, the country would face a critical situation as the majority of the merchants bought merchandise in the United States far in excess of their needs.

To understand the conditions of exchange with Argentine requires a study of international trade and financial conditions in that country for the past two or three years. Before the war Argentine had a favorable balance of trade. Its financial system was sound, a free gold market was maintained, its credit was regarded favorably throughout the world and exchange was subject to normal fluctuations. The war brought about great changes in the invisible factors of exchange such as the payment of ocean freights, interest on foreign investments, remittances by immigrants to relatives abroad and the investment of new foreign capital. Recently there has been an increase in the invisible items which Argentine has been required to pay and the situation is much different from that of before the war.

CITY TRUSTEES

OFFICIAL MINUTES OF BOARD PROVIDED BY MEETING HELD LAST NIGHT

(Continued from Page Three)
to be laid over until the next regular meeting, calling an election submitting a proposed freeholders' charter for the city of Glendale.

The city manager presented a map outlining the proposed boundaries of Municipal District No. 3 in Verdugo Canyon and the same was on motion of Trustee Henry ordered to be filed.

Trustee Robinson presented an ordinance which was read and ordered to be laid over declaring the intention of the board to call an election within the district outlined as "Municipal District No. 3 of the City of Glendale" for the purpose of submitting to the qualified electors of the said district, the proposition of authorizing the issuance and sale of bonds of such district.

On motion of Trustee Henry the following resolution was adopted:

"Whereas, As it appears that on the 26th day of August, 1920, the board passed a resolution No. 1118, entitled as hereinafter stated, and by the vote hereinafter mentioned and that by error the passage of said resolution was not entered in the minutes of this board for August 26, 1920, now therefore the minutes of this board for August 26, 1920, are hereby corrected by inserting therein the following:

"'Trustee Henry offered a resolution No. 1118 entitled, 'A resolution of the board of trustees of the city of Glendale ordering the removal or destruction of dirt, rubbish, weeds and rank growths from certain lots and grounds and from the sidewalks opposite thereto,' which was on his motion adopted by the following vote—Ayes, Bartlett, Henry, Robinson, Shaw, Stephenson. Noes: None. Absent: None.' The clerk is hereby directed to enter a reference to this order correcting the minutes on Page 175 of Book 8 of Minutes of this board."

Removal of Weeds

On motion of Trustee Bartlett, resolution was adopted as resolution No. 1153, setting aside the assessment for the removal of weeds and other work under resolution No. 1115.

On motion of Trustee Lapham resolution was adopted as resolution No. 1154 setting aside the assessment for the removal of weeds and other work under resolution No. 1118.

On motion of Trustee Robinson, resolution was adopted as resolution 1155, setting aside the assessment for the removal of weeds and other work under resolution No. 1119.

On motion of Trustee Henry, resolution was adopted as resolution No. 1156, setting aside the assessment for the removal of weeds and other work under resolution No. 1120.

Patterson Avenue

The chairman made a statement in regard to Patterson avenue in connection with the action taken at the last regular meeting of the board, to the effect that the ten-foot strip which had been omitted from the original proceedings for the opening of that street had been omitted as the result of an agreement made with a number of residents of that street, by a former board of trustees by which that property was not to be disturbed. In accordance with this explanation a motion of Trustee Bartlett was adopted that the action taken by the board in regard to including the said ten-foot strip in the proceedings for the opening of the street, be and is hereby rescinded by roll call vote, all voting aye.

Zoning Committee

A motion of Trustee Bartlett was adopted that at the next regular meeting of the Board the hour from 8 until 9 o'clock p. m. be set aside for a conference with the Zoning committee.

Parking Time Limit to Autos

A motion of Trustee Henry was adopted instructing the City Manager and the City Marshal to investigate and report to the Board as to the advisability of establishing a time limit for parking automobles on the streets of the city.

Increase for Traffic Officer

A motion made by Trustee Henry was adopted instructing the City Attorney to draft an ordinance amending the present salary ordinance fixing the salary of the Traffic Officer at $145.00 per month. On motion of Trustee Bartlett, further action in regard to the same was deferred for one week.

Improvement of Elk Avenue

On motion of Trustee Lapham, the City Manager was authorized to call a meeting of citizens interested in the improvement of Elk avenue, west of Central avenue, and report to the Board the result of same.

Acacia Street Repairing

Trustee Robinson made a motion which was adopted that the City Manager investigate the condition of Acacia avenue, east of Glendale avenue, and report to the Board an estimate of the cost of improving same.

Motion of Trustee Henry was adopted as follows:

Pipe Line East Broadway

"Whereas, This Board has heretofore advertised for bids for installing a water pipe line on East Broadway from Verdugo Road to the east city limits, and no bids were received therefor, now, therefore this Board does hereby determine and declare that, in its opinion, said work may be performed more economically by day labor, and the City Manager is hereby directed to have said work done by day labor."

Ayes: Bartlett, Henry, Lapham, Robinson, Stephenson.

Noes: None.

Adjourned.

ABOUT GRADUATES

SOME FACTS CONCERNING 14 MEMBERS OF MID-WINTER GRADUATING CLASS

Facts about the graduates of the mid-winter class of the Glendale high school, which held commencement exercises last night, as told by their enrollment cards of last September, follow:

Harold L. Alexander, 824 East Acacia. Place of birth, Dallas, Tex., Feb. 2, 1904. Where last in school, Bryan High, Dallas. Preparing for engineering. Parent or guardian, Mrs. Lucy Alexander.

Joseph H. Billingsley, 128 South Maryland avenue. Place of birth, Grand Junction, Colo., September 9, 1902. Where last in school, Bellington, Wash. For what preparing, uncertain. Name of parent or guardian, R. H. Billingsley.

Edgar Butlin, postoffice address Burbank, R. D., Box 72. Place of birth, Perce, Canada, Dec. 21, 1902. Where last in school, Glendale union high. Parent or guardian, Mrs. W. A. Norton.

Helen F. Beach, 633 North Brand. Place of birth, Augusta, Montana, Nov. 30, 1902. Where last in school, Glendale union high. Parent or guardian, A. W. Beach. For what preparing, uncertain.

Irmadean Orr Bowen, Eighth street, Burbank. Place of birth, Center, Tex., Jan. 13, 1903. For what preparing, college. Name of parent or guardian, Charles K. Bowen.

Muriel Theobald, 312 West Acacia, Place of birth, Hartford City, Indiana, Aug. 24, 1903. For what preparing, college. Parent or guardian, Mrs. W. E. Theobald.

Dorothy Louise Patterson, 111 East Maple street. Place of birth, Glendale, Jan. 28, 1903. For what preparing, uncertain. Parent or guardian, Mrs. Louise Bullis.

Charles DeLeon Anthony, 536 North Maryland. Place of birth, San Francisco, Sept. 28, 1902. Where last in school, transferred from Los Angeles High school. For what preparing, college. Parent or guardian, Walter Anthony.

Francis E. Dreyer, 232 North Cedar street. Place of birth, Florida, Sept. 20, 1902. For what preparing, civil engineer. Parent or guardian, H. H. Dreyer.

Frank L. McGillis, 1003 East Lomita avenue. Place of birth, Savannah, Georgia, May, 1902. For what preparing, college. Parent or guardian, J. N. McGillis.

Tom F. Lyon, 665 North Central avenue. Place of birth, El Paso, Tex., July 9, 1903. Parent or guardian, Mrs. L. E. Barnes. For what preparing, not given.

Dorothy Creeth Woods, 122 West Milford street. Place of birth, Dublin, Ireland, February 26, 1903. For what preparing, dramatic teacher. Parent or guardian, J. H. Woods.

Ray B. Sanders, 329 East Sycamore, Eagle Rock. Place of birth, Clinton, Iowa, October 19, 1900. For what preparing, college. Parent or guardian, Mrs. C. W. Sanders.

Victor Francy, 136 North Kenwood street. Place of birth, Mt. Pleasant, Ia., April, 1901. For what preparing, not given. Parent or guardian, David Francy.

OLD SEA FIGHTER

KEARSARGE, LAUNCHED IN 1898, NEVER FIRED GUN EXCEPT IN MIMIC WARFARE

Launched amid the Spanish war stir of 1898, the old battleship Kearsage, then expected to revolutionize naval warfare, has passed out of the fighting line without having fired a gun in anger. Long ago the ship, a giant in her day, was thrust aside as a naval "freak." Memories that lurked in her historic name, proud imaginings of her future that once filled the press, could not save her. She is to become naval crane ship No. 1, a peaceful plodding handmaiden to the present fighting craft. Beside them she will be almost a pigmy.

At League Island navy yard the ship is being stripped of war gear. Guns that have fought only mimic battles are going overside into scrap. The great superimposed turrets are being torn out. Cage masts must go. Steel walls of the conning tower will disappear. Much of the side armor will be stripped away and only the hull and engines left.

To Go From Yard to Yard

On this base will rise a monster electric crane capable of lifting 250 tons. To support it the ship's sides are to be bilged to a beam of ninety-two feet midships as compared to the present seventy-two feet. The lifting machine will be used to hoist aboard modern battleships sections of the three-gun turrets for sixteen-inch rifles, which weigh 200 tons, and the great rifles.

The ship will go from yard to yard as needed. She will have storage space for two three-gun turrets.

On the theory that music banishes fatigue, a building contractor once introduced bagpipes to spur his Scottish workmen on. The men worked so speedily that they struck for more money.

GIVEN DIPLOMAS

MID-WINTER CLASS OF LOCAL HIGH SCHOOL GRADUATES; STUDENTS HONORED

(Continued from Page 1)
was greeted with much applause. She was also presented with a lovely bouquet of sweet peas.

The high school orchestra then played "Minuet" (Schubert).

Address by Leslie B. Henry

Professor George U. Moyse then introduced the speaker for the evening, Leslie B. Henry, of Pasadena, who spoke to the boys of the school last month. The subject of the commencement address was "Qualifying for Success."

Mr. Henry, in his speech, said that the one mark of success is to qualify, in all the usages of the term, to the name of ladies and gentlemen. This consists first of a good, clean, healthy body and a good, clean, healthy mind. The man who succeeds is the one who applies all of the qualities he has towards some definite goal in life; who depends on his own qualifications for accomplishment in competition, instead of using unfair and unscrupulous methods toward his competitors.

Mr. Henry then related an incident which to him really seemed to be the formula for success. Knowing what to do, how to do it, when to do it, and then to do it, that is all there is of success. Men or women who follow that rule can not fail to do some measure of great accomplishment, he said. Mr. Henry then spoke on intemperance of all kinds, and the necessity of conserving energy. Energy, after all, is the final force for success. Energy, the thing that will not down, and the thing without which you are not even half yourself. He also spoke on concentration.

Mr. Henry's address was very inspiring and one which might well be heeded by the graduates and older people alike, declared many who heard it.

Seventeen members of the Boys' Glee club then sang "Serenade" (Parks) and "Fishin'" (Bliss), which numbers were greeted with hearty applause.

Students Win High Honors

Harold L. Alexander, on behalf of the graduating class, then presented the class memorial, which was accepted by Mr. Moyse, who responded with a very appropriate speech on behalf of the faculty and the school board.

Mr. Moyse then stated that when a student attains an average of 92 per cent in all his studies for four years it has been the custom of the school to present this student with a gold honor pin as a mark of distinction. On account of some unavoidable delays the pins had not been presented and one of the graduates had claims to this honor. He stated that Miss Irmadean Bowen had completed her four years of school work with an average of 92 per cent or over and should be wearing her pin.

Mr. Moyse also called attention to two other members of the class who have given of their time to various activities of the school, outside of the athletic field. The names of Muriel Theobald, who has given so liberally of her services in the library and girls' gymnasium, and Victor Francy were mentioned as being due the honor of having the special school activities pin.

Diplomas Are Presented

The class was then presented to Dr. A. L. Bryant, secretary of the board of high school trustees, who gave diplomas to the following: Francis E. Dreyer, Joseph H. Billingsley, Victor Francy, Ray B. Sanders. Frank L. McGillis, Dorothy Woods, Irmadean Orr Bowen, Edgar J. Butlin, Dorothy Louise Patterson, Helen F. Beach, Tom F. Lyon, Harold L. Alexander, Charles DeLeon Anthony, Muriel Theobald.

The high school orchestra then played the recessional "Stand by the Flag" (Stults) as the graduates marched from the stage and out of the auditorium.

GIVES AID TO CROOKS

To prevent damage due to explosion the head of a Columbus, Ohio, firm has had the combination of his safe painted on the face of the strong box for the benefit of the crook who would otherwise blow it open.

STILL RAISED BY CHINESE

A book written more than 1000 years ago makes mention of two breeds of poultry which are still being raised in China and the incubators made on the same principle as those in use today were employed in Egypt 4000 years ago.

STEP ON FISH; POISON RESULTS

There is a fish which lies buried in the coral sand of the South seas, the spines of whose dorsal fin are hollow like the fangs of a rattlesnake. When stepped on it ejects a poison which kills or cripples the victim.

DESTROYS TELEPHONE POLES

The "short-circuit" bug is a beetle of California which is able to bore through wood and alloyed substances which are harder than lead. Hundreds of telephones are out of commission because of the depredations of this beetle which bores holes in the cables allowing the rain to enter.

Automobiles are found on one-fourth of the farms in Ontario, and half the homes are equipped with telephones.

NEW BOOKS OUT

VARIED VOLUMES ARE PUT UPON SHELVES OF LOCAL LIBRARY THIS WEEK

New books released at the Glendale library yesterday are as follows:

"The Triumph of the Man Who Acts," by Edward Earle Purinton. It is the man who acts, says Mr. Purinton, who really triumphs, not merely over outside things but over himself as well. In this book are gathered together a number of essays on various problems of life which will go a long way toward clearing the vision of many who are now struggling along without guidance or hope. There is nothing mysterious about efficiency; it is merely a combination of work, common sense and experience. The work is your job; but here is the result of Mr. Purinton's many years of experience as a student and teacher of efficiency methods—plus his inspired sanity—to help you.

Full of Subtle Pictures

"Sweet Rocket," by Mary Johnston. "Sweet Rocket" is a mystical novel full of subtle pictures, pervaded by a sense of those unusual things more beautiful, more enduring than the seen; the story of a man and woman living in the beautiful atmosphere of a fine old house, "Sweet Rocket," where generations of men have lived and loved; and of how they went hand in hand on their spiritual quest. The power of its mysticism, the interest of its searchings, the sense of beauty that pervades and underlies everything, give to the readers of Miss Johnston's book a rare distinction.

"Smoke and Steel," by Carl Sandburg. A book of underworlds and overtones, by the most American of American poets. In it the commonplace incidents of everyday life—a street corner, the flare of the furnace or the whirr of machinery, a man in shirt sleeves, a girl cashier in a restaurant—are transformed and fused into the eternal warp and woof of life.

"How Many Cards," by Isabel Ostrander. A new Roundsman McCarthy detective story.

Unfolding of Character

"The Young Physician," by Francis Brett Young. A careful and delicate study of the gradual unfolding of a young man's character. From his first days at school to the eve of his entering on life as a full-blown doctor, Brett Young carries his hero, holding our interest by beauty and precision of language as well as by that intangible something in his style that makes characters living and scenery real to the reader.

"Pictures of the Floating World," by Amy Lowell. A volume of lyrical poems.

"An Anthology of Recent Poetry," compiled by L. D'O. Walters, with an introduction by Harold Monro. This selection is representative of the chief contemporary British poets and gives an excellent survey of the field. The poems express the spirit of the times and they are also examples of the best work of their respective authors.

"Man to Man," by Jackson Gregory.

"The Ice Pilot," by Henry Leverage.

"Common Diseases," by Woods Hutchinson.

STRAWSTACK HOME 2 MONTHS

SPRINGFIELD, Ohio — When Charles Snyder, a farmer living near here, discovered a hole in a strawstack while out hunting, he scented a mystery. The stack is about forty rods from his barn. At first he thought he had trapped big game of some kind, and his impulse was to shoot into the hole. Then, taking a second thought, he feared the flash from the gun might set fire to the stack.

He then rammed a board into the hole, but the board came back much quicker than it had gone in. Snyder then realized the "big game" must be a man. A half dozen neighbors having been summoned, the stack was surrounded, and one man yelled into the hole that they were going to set fire to the straw. There emerged from the hole a man, blackened and otherwise dirty. He refused to give his name, but said he had been living in the stack for months.

After digging away ten feet which formed the wall of the stack, Snyder found a room about ten feet square in the center. The intruder had erected a stove in the room and had been cooking his meals in the center of the straw stack. There was no opening for the smoke to escape, and this accounted for the begrimed condition of the man.

The room was equipped with cupboard, buckets, eatables and other necessities for existence.

The stranger was turned over to the sheriff of Miami county, who recognized him as Tom Cannon, whose permanent place of abode is near Tippecanoe City.

WANTS TARIFF BENEFITS

ATLANTA, Ga.—Southern leaders—industrial, state and political—gathered here recently for the second Southern Tariff Congress.

Tariff schedules as they affect southern industry will be discussed, and recommendations for changes with a view of improving conditions will be formulated.

Among those scheduled to participate in the convention are Vice-President-elect Calvin Coolidge and governors from 17 southern states. Coolidge was expected to address the congress.

"If we are going to have a tariff, I want some beneficial results to accrue to our people of the south," said former Governor Sidney J. Catts, of Florida. "Therefore, I am strongly in favor of a tariff on southern products and manufactured goods."

Governor Cooper, of South Carolina, declared he was attending the congress because he wanted to "hear the leading minds of both parties discuss this all-important subject."

"I feel that this meeting will be of great benefit to the productive industries of our southland," soid Cooper.

The conference will last three days An official report of the three sessions will be prepared and submitted to the tariff commissioners at Washington.

The Southern Tariff Congress was formed in 1920 at a meeting held in New Orleans. John H. Kirby, of Fort Worth, Texas, was named president, with office at Fort Worth. An attempt to establish permanent headquarters either at Atlanta or Washington, D. C., is expected to be made.

WALKS 50 MILES TO ENLIST

A young man from a point near Harrisburg, Ill., recently walked fifty miles to enlist in the United States army.

STATISTICAL FACTS

MATTERS OF INTEREST WHICH ARE BASIS FOR QUESTIONS MANY TIMES DAILY

Believing that the many new residents of Glendale are vitally interested in the statistical facts concerning the city of their adoption, The Evening News presents below a few concrete items of this kind. These all pertain to matters concerning which many inquiries are made by newcomers:

Population, 1910	2,742
Population, 1920	13,356
Population, 1921	15,657

PUSHES 112 TIMES OWN WEIGHT

A common beetle was covered by having a quart bottle of milk placed over him, so that he should be kept captive without being hurt. To the captor's amazement, the bottle began moving and gliding along the table. The beetle was pushing along 112 times its own weight.

ELK PREYING UPON FARMERS

Two herds of elk have been preying upon the farmers near Newry, Pa. A party of sportsmen under direction of a game warden are driving them back into the mountains.

PROTESTS PROJECT

CONSULTING ENGINEER GIVES HIS OPINION IN REGARD TO SEWER SYSTEM

Some of the citizens of Los Angeles are becoming awake to the advantages of such a sewer system as is proposed for Glendale, in which the liquid content is separated from the solids and used for irrigation purposes, while the latter is made into fertilizer.

R. W. Hadden, a consulting engineer, in a recent address to the City Club of Los Angeles referred to a plant that had been built in 1917 near Los Angeles for a large ranch on which lived many people, that is still in successful operation, distributing the separated sewage over the ranch for irrigation and fertilizing. All the sewage so treated was absolutely without odor, he said.

Continuing, Mr. Hadden showed the advantages of such a system, which is recommended for Glendale, over the outfall plan to conduct it into the ocean by connecting with Los Angeles' system.

Get Revenue from Sewerage

He said, among other things, referring to the small plant mentioned above:

"Los Angeles should similarly treat its sewage and derive from it an income of at least $2,000,000 a year. The ranchers of the territory served by Los Angeles need water and fertilizer, and yet it is proposed that this valuable sewage be dumped into the Pacific Ocean. I say that is sheer nonsense and would be waste of public money. Two hundred and fifty cities in the United States and in England are reaping a revenue from their sewage. Why should not Los Angeles do likewise? The Dorr Engineering corporation of New York offered to build an experimental treatment plant here, the city to pay for it only after the plant had made good.

Has Suggestion to Make

"No attention was paid to the offer. Instead of building a great outfall sewer, which will be fought by the beach cities, I suggest that the sewage from the east side of the city be diverted to a treatment plant to be built east of Santa Fe avenue."

If, in the opinion of this engineer, such a plan is better and far less expensive for Los Angeles which has access to the ocean direct, how much more so for Glendale, which is completely cut off from such an outlet, state those favoring the project.

FLAYS LEGISLATIVE SYSTEM

SACRAMENTO—Disgust at California's two-session method of enacting laws permeates the senate, according to Senator Herbert W. Slater, an old-timer from Sonoma.

Senator Slater wants the state to go back to the single session just as soon as it can.

"Slater comes from the rope country," explained Senator Walter A. McDonald of San Francisco, to a group of "the boys" following a morning adjournment.

"The what country."

"The rope country where they swing 'em quick."

Slater grimly averred he was as alleged.

The Sonoma man said the first half of the bifurcated session is a joke—there are no debates except in occasional hearings. And during the recess no legislator studies the bills as it was intended he should.

The original idea was to finish the business of introducing bills during the first half but with each of the 120 members having the right to introduce two bills during the adjourned session the plan has been lost sight of, he says.

TWO HUNDRED YEARS OLD

HAVERHILL, Mass.—The old Nichols homestead, standing in Nicholsville for 200 years, is in ruins as the result of a fire which started from unknown origin and which gutted the house and fell before firemen from Haverhill and Merrimac succeeded in subduing it.

INSISTS ON HANGING

DETROIT—Dan Bulitu of this city persisted in hanging around a police station here until the police attendants nearly had nervous prostration. He was first found hanging in his cell by his suspenders. Then he tried his shirt, then his belt and finally his trousers. Not having anything else to hang himself with, he gave up his idea of suicide and decided that life was worth living after all.

GIVES STATISTICS ON FLORIDA

According to new statistics issued by the director of census, Florida contains 54,005 farms with a total of 5,846,693 acres of which 2,297,271 acres are classed as improved land. The value of all farm property in the state is $329,286,817. The value of the land and buildings is $280,450,504, of implements and machinery $13,551,773 and of live stock $35,284,540.

DIFFERENCE IN PULL SHOWN

Iowa State college has recently completed tests which show that a wagon pulls easier when the load is placed over the rear wheels than when it is placed over the front ones. The difference in pull is said to amount to about 100 pounds.

Chilled fish from Newfoundland is prepared in a cold storage plant which has a capacity for handling over 200,000 pounds of fish a day.

COAL FOR VALPARISO

While the Chilean commission in New York is constantly buying coal in the United States, J. Donoso has arrived in this country recently to purchase coal in larger quantities. He also speaks of the possibility of buying sugar for that country. Chile does not produce a single grain of sugar. All the sugar used in the country is imported from Peru.

FARMER IN ELEVATOR TRADE

In a report made to congress the Federal Trade commission reports: "An outstanding development in the marketing of grain in recent years has been the entry of the farmer into the elevator business as shown by the growth in the number of individual co-operative elevators organized by farmers and used by them in marketing their grain."

FOUR TYPES OF SPINNING

In North America alone there are four distinct types of spinning to be found and some half dozen types of weaving in use by the Indian textile workers. Also they have most interesting devices for warping, for shedding, for pattern-making, and in addition, countless secrets for dyeing.

MOTION PICTURE GIVES AID

The Chamber of Commerce of San Jose has adapted the motion picture to the need of impressing the people with the variety and importance of its activities and achievements during the past year.

There are only three ounces of radium in the world today. It is valued at $3,260,000 an ounce.

OFFICIALS AND POLLING PLACES CHOSEN FOR CONGRESSIONAL VOTE

Ballots to Be Cast in Twenty-two Precincts in City of Glendale on February 15

In view of the importance of the special election to be held on February 15 in the ninth congressional district to select a successor to Congressman-elect Van de Water, The Evening News again publishes the complete list of polling places for this city, there being twenty-two precincts.

The election of a congressman is the only matter to be voted upon and, political leaders say, many voters, unless they know the exact location of their polling place, may not take the trouble to learn the location and go to the polls. It is with the desire that the people of Glendale may become familiar with the location of the polling places that the list is again submitted.

According to the list there have been four changes in location since November 2, last. These are No. 12, moved from 206 to 222 North Verdugo Road; No. 13, moved from 624 to 628 East Broadway; No. 14, moved from 518 East Wndsor Road to 800 South Glendale avenue; No. 21, moved from 614 East Wilson avenue to 147 North Glendale avenue.

If these changes are authentic, and they should be, as the list as given herewith was sent out from the office of the county supervisors, voters in these precincts should familiarize themselves with the new locations.

The name of the polling place, the location of the polling place and the names of the officials are given herewith:

Precinct No. 1
Polling place, residence, 460 Palm Drive.
Inspector, Miss Alice G. Carmichael. Judges, Mrs. Golden A. Dewey, Mrs. Nellie J. Stofft. Clerks, John G. Pollock, Miss Nettie E. Dewey, H. Douglas.

Precinct No. 2
Polling place, garage, 611 North Central avenue.
Inspector, Orin L. Howard. Judges, Beryl C. Cross, C. W. Kinnan. Clerks, Mrs. B. Trimmer, Harriet R. Rathbun, Bertha L. Howard.

Precinct No. 3
Polling place, garage, 360 West California avenue.
Inspector, Clement L. V. Moore. Judges, Helen Hosford, Mrs. Eva Bolen. Clerks, Mary L. Huston, Grace E. Holman, W. H. Kortz.

Precinct No. 4
Polling place, residence, 314 West Broadway.
Inspector, W. S. Ingram. Judges, William Hyatt, Ella P. Tatlow. Clerks, Opal O. Greenwalt, Emma M. Alvord, Fayetta Musser.

Precinct No. 5
Polling place, garage, 347 Riverdale Drive.
Inspector, Mrs. Clara Puffer. Judges, Mrs. Essie W. Halstead, Mrs. Edith C. Dobson. Clerks, William E. Halstead, Mrs. Carrie A. Waite, Mrs. Ida Gilman.

Precinct No. 6
Polling place, garage, corner South Brand boulevard and Colorado street.
Inspector, Orlando A. Lane. Judges, Henry A. Goodwin, Louise E. Lane. Clerks, Mamie E. Boettner, Morris E. Caruthers, Mrs. Iris F. Kilborn.

Precinct No. 7
Polling place, garage, salesroom, 115 West Harvard street.
Inspector, Mrs. Nellie J. Davis. Judges, J. M. Lind, Blanche Love. Clerks, Lewis W. Ball, Rosetta Tomlin, Mrs. Edith M. Hurst.

Precinct No. 8
Polling place, garage, 202 North Orange street.
Inspector, F. B. Buchanan. Judges, Sam P. Stoddard, John A. Cole. Clerks, Mary E. Peters, Mary C. Church, Anna B. Flint.

Precinct No. 9
Polling place, garage, 319 North Maryland avenue.
Inspector, Wilbur F. Tower. Judges, William J. Smith, Mrs. Julia M. Wilkin. Clerks, J. Rhea Baker, Mrs. Louise Morton, Claud E. Case.

Precinct No. 10
Polling place, residence, 1116 North Louise street.
Inspector, Mrs. Minnie H. Berry. Judges, Mrs. Mary G. Snively, Ruth E. Snively. Clerks, Mrs. Marianna H. Gillelen, Mrs. Minette Sherman, Georgia J. Chobe.

Precinct No. 11
Polling place, residence, 801 East Wilson avenue.
Inspector, S. J. Reid. Judges, Mrs. Grace W. Addison, R. R. Davis. Clerks, C. R. Norton, Lourina S. Hail, Corrine Jones.

Precinct No. 12
Polling place, store, 222 North Verdugo Road.
Inspector, Edward Ross. Judges, Mrs. Elizabeth A. Sinclair, Mrs. Ada Billington. Clerks, Lily Fielding, Belle S. Kuehny, Wesley Ross.

Precinct No. 13
Polling place, barber shop, 628 East Broadway.
Inspector, W. S. Hammond. Judges, G. Irwin Royce, Genevieve D. Goss. Clerks, Mrs. Allena M. Powers, Mrs. Daisie H. Findlay, Mrs. Fluellina Daugherty.

Precinct No. 14
Polling place, garage, 800 South Glendale avenue.
Inspector, Mrs. Pearl S. Chambers. Judges, Mrs. Ella C. Witham, O. W. Tarr. Clerks, Arthur W. Timmons, Willis E. Heald, Grace V. Mertens.

Precinct No. 15
Polling Place, garage, 1321 East Colorado street.
Inspector, J. L. Denney. Judges, Edward H. Reese, Grace A. Corbaley. Clerks, Mrs. Anita Crawson, Mary A. Burgess, Ralph W. Meeker.

Precinct No. 16
Polling place, residence, 610 East Acacia avenue.
Inspector, Frank E. Peters. Judges, Fred A. Alspach, Mrs. Adelaide Chappius. Clerks, Mrs. Jessie L. Martin, Mabel Cadd, Mary O'Brien.

Precinct No. 17
Polling place, garage, 1006 South Brand boulevard.
Inspector, Stillman E. Brown. Judges, Harrison H. Davenport, Mrs. Margaret Gaarder. Clerks, Margaret Ingraham, Elena Roberts, Cora M. Webster.

Precinct No. 18
Polling place, garage, 337 West Acacia avenue.
Inspector, Cora B. Hickman. Judges, Stuart M. Street, Emil E. Fram. Clerks, Elsie K. Lake, Adeline W. Williams, Charles H. Kelso.

Precinct No. 19
Polling place, furniture shop, 1517 South San Fernando boulevard.
Inspector, Julius Moniot. Judges, Mrs. Dora L. Howe, Wesley H. Bullis. Clerks, David J. Hibben, Mrs. Ethel Klaunn, Mrs. Nellie Simpson.

Precinct No. 20
Polling place, garage, 315 West Cerritos avenue.
Inspector, Mrs. Rose A. Gilhuly. Judges, Gertrude Thedaker, Mrs. Queen Danner. Clerks, Ada M. Server, Miss Mae Ruprecht, Louis L. Baker.

Precinct No. 21
Polling place, office, 147 North Glendale avenue.
Inspector, David Francy. Judges, William Thomson, H. G. Lucas. Clerks, H. E. Francy, Edward Hoskyn, Lula F. McBryde.

Precinct No. 22
Polling place, store, 1022 East Colorado street.
Inspector, John F. Chandler. Judges, Hattie E. Gaylord, Mrs. Nannie E. Palmer. Clerks, Cora B. Engle, Rachel T. Lord, J. C. Pierce.

IMPROVING ELK

OPENING MEETING WILL BE HELD TO LEARN VIEWS OF PROPERTY OWNERS

As the result of a request made at the meeting of the board of city trustees last night by Trustee Lapham, an opening meeting of property owners residing on Elk, west of Central, will be held for the purpose of discussing the improvement of that thoroughfare.

Trustee Lapham stated that a number of people residing on Elk avenue have spoken to him regarding the condition of the street and urged that some action be taken to secure its improvement.

On motion of Trustee Robinson, seconded by Trustee Lapham, the city manager, T. W. Watson, was instructed to call a meeting of the property owners on Elk avenue, west of Central avenue, and learn just what kind of work was desired. The date for the meeting has not yet been set.

Other Streets Mentioned

Trustee Bartlett called attention to the fact that, in her opinion, improvement work needed to be done on Milford street, west of Central avenue. She said she had traveled the street recently and was of the belief that the property owners would appreciate its improvement. No action was taken, however, for the reason that a formal request has not as yet been received from the property owners.

The condition of Acacia avenue, east of Glendale avenue, was also discussed by the board. The city manager said that some work should be done there. No formal action was taken last night.

FUEL-OIL STATION AT CUBA

The establishment of a fuel-oil supply terminal at Punta Piedra, one-half mile from Antilla, is being contemplated by a company already established in Cuba. At that point the water has a shore depth of but four to five feet; 1000 feet from shore the depth is twenty feet; 2200 feet from shore it is twenty-two feet. The company plans to erect two storage tanks of 55,000 barrels capacity each, pump houses and a dock to be at least 1000 feet long. Vice-Consul Buck states that this company is already established at Havana, Matanzas, Cienfuegos, Manzanillo Nuevitas, and Cienega and Regla, the two latter places being just outside of Havana and has 55,000 barrel tanks at each point. It is said that similar tanks will be built at Santiago de Cuba.

HOW DEAFMUTISM VARIES

It is curious to note how deafmutism varies in different countries. In Switzerland, for instance, owing to the prevalence of cretinism, 245 per 100,000 of the inhabitants suffer from it, whereas the general average among European countries is seventy-nine, and in the United States sixty-eight per 100,000.

VERDUGO PLANS

BOARD OF TRUSTEES FIXES DATE OF FEBRUARY 17 TO HEAR PROTESTS

(Continued from Page 1)

hearing on February 17, may cause the trustees to change the lines of the proposed district.

Reports Are Submitted

At last night's meeting, City Clerk Sherer submitted a report on the petition, saying that it had the signatures required by law.

Later in the meeting, T. W. Watson, city manager, submitted the following report:

"In accordance with petition filed in the office of city clerk the 20th day of January, 1921, which petition was signed by C. H. Allison, 142 Hillside Drive, and seventy-six other registered voters of the city of Glendale requesting that municipal improvement district No. 3 be formed, we submit herewith diagram of district as proposed by said petition and general description of proposed improvements and also estimated cost thereof.

"The estimated cost of works as proposed for the collection and disposal of sewage from said district including the acquisition of lands, easements, and rights of way, and the construction of pipe lines, manholes, flushtanks, septic tanks, cesspools and other works and appurtenances necessary for such purpose is $45,830. The incidental expenses including engineering, inspection, cost of election and legal proceedings will be $4,170."

BOARD DECIDES

TRUSTEES DETERMINE WHICH TREES TO CUT DOWN AND WHICH WILL REMAIN

(Continued from Page One)

of an accident which, in turn, would create a demand for the removal of the tree, a real landmark. The coping should be removed and the tree preserved.

"A fine specimen in the center of the crossing at Myrtle street and Pacific avenue should, after centuries have passed, stand to remind the people that our valley was dotted with like specimens before the white man came.

Park Strip Is Proposed

"A group on Lexington avenue, near Louise street, add wonderfully to the neighborhood.

"A number of noble specimens on Monterey Road, all near the center of the street, suggest that a park strip in the center of the street for trees be set aside with a roadway on either side. This would avoid the usual danger caused by isolated trees in the roadway.

"There are a number of other, smaller trees, that should be preserved, at least until the young trees being planted will have attained considerable size."

While the city forester did not specifically mention the tree on Glendale avenue, it was pointed out that the installation of the water pipe line there would cause the tree to be partially destroyed, so it was recommended by the city manager that it be taken up, and it was ordered done.

Some weeks ago the board, by a majority vote, ordered all of the trees in the roadways of the city removed, but at a later meeting, on motion of Trustee Bartlett, this action was reconsidered.

LINCOLN'S WEDGE ON DISPLAY

Abraham Lincoln's railsplitting wedge with his initials cut in the steel has been placed in the United States national museum in Washington.

SAYS MOUNTAINS GOING AWAY

BERKELEY—The mountains of the coast range are moving slowly northward, causing enormous earth strain and producing rebounds, in one of which Mount Tamalpais jumped back 6.6 feet, according to Prof. A. C. Lawson of the University of California, in a geological bulletin made public.

Tamalpais moved northward 10 feet between the years 1854 and 1906 and then hopped back 6.6 in 1906 at the time of the San Andreas slip, which caused the great earthquake of that year, Professor Lawson asserted.

Mount Hamilton, near San Jose, he said, moved northward at the rate of four feet a year from 1893 to 1903, but after a sudden shift in that year continued at the rate of 2.2 feet.

Ukiah, according to the geologist, traveled northward from 1900 to 1917 at the rate of one foot a year, and since it is not on the San Andreas fault on which the great slip of 1906 occurred, the town has held this gain.

OPPOSING WAR

PEOPLE OF JAPAN DO NOT WANT TO FIGHT WITH U. S., SAYS WRITER

BY HENRY W. KINNEY
United Press Staff Correspondent

TOKIO—While isolated quotations from speeches of statesmen out of office may be printed occasionally to prove apparently belligerent feelings on the part of Japan toward the United States there can be no doubt but that the people of Japan do not wish for war.

Nor are they even vitally interested in the issues which are supposed to make for war.

This does not mean that it is at all impossible to irritate and insult Japanese national pride that Japan may feel driven into a fight, preferring even to be beaten to accepting insult without protest. But even though a few politicians anxious to make a case against the government may be found in Japan who make statements which appear very warlike, it seems apparent that, instead of interest and indignation against the United States in the matter of Japanese immigration to the United States increasing, the public is beginning to tire of the matter.

Make Progress in Negotiations

At present the government is sitting tight, desiring that all matters connected with the California question be let alone, at least until such time as some definite outcome of the present Washington negotiations is at hand.

The foreign office merely lets it be known that these negotiations are making satisfactory progress. It is evident that it now feels that the matter has reached the point where the state department at Washingon must feel out the senate to ascertain whether it will be safe to submit to that body such provisions which have been agreed upon between Ambassador Shidehara and the officials of the state department.

If it is deemed fairly certain that the senate will agree to these arrangements, the whole matter will be considered as practically settled. If, on the other hand, it is decided that there is a fair chance of the senate's turning down the proposal, it will not be submitted at all, lest Japan's pride be exposed to further humiliation in the senate.

TYPISTS WICKED?

THAT'S WHAT SECRETARY OF STATE FOR NEW YORK HAS REVEALED IN INQUIRY

The lady of the chorus is a much-maligned person. She is not a naughty girl, or if she is she's clever enough to submerge her identity under the crime wave. In many instances she is just a nice little mother who divides her time between the white lights of the stage and the bright lights of the home.

That's about the conclusion Secretary of State Lyons, of New York, has reached. He has just had the crime wave under the microscope, or whatever his scope is for grouping crime, and with the aid of his staff and their adding machines he learned that 31,062 men and 2773 women were convicted last year. This total of 33,835 criminal convictions last year is 13,447 less than in 1919.

Some Figures Are Given

Of all the women only one was a chorus girl. Stenographers were eighteen times more wicked than the ladies of the chorus, for just that number of them paid the penalty of having been caught. Home brew may have been responsible for the fall of 79 lady cooks, 17 housekeepers, 3 milliners, 4 laundresses, 5 seamstresses, 4 teachers, 82 domestics and 89 waitresses.

Farmers were among the toughest guys of the year for whether it was hard times or hard cider, 170 of them got into the toils. There were eighteen farm hands and one farmerette.

Clerks and chauffeurs, it seems, are beyond hope. In each class 381 were convicted. At least the clerks said they were clerks and there was no doubt about the chauffeurs. But the chorus lady is vindicated.

YOUTHFUL ANGLERS GET BATH

NEW YORK—May Rooney is only 10 years old, but she is decidedly acquisitive, so when a man told her that there were whales in Central park she concluded that the best thing for the Rooney family would be to have a whale. She set about catching one.

Having fashioned herself a hook out of a pin and tied the hook to a piece of string she set forth, accompanied by her 7-year-old brother, Henry; her 4-year old sister, Kathleen, and Julia Khoury, 10 years old, who lives in the same house as the Rooneys.

The hardy fisherfolk climbed a large rock at the edge of the large lake in the park and May cast her hook overboard. She didn't get a bite, but Henry thought she did. So he leaned forward to help pull in the whale and slipped off the rock, landing with a mighty splash in the lake.

The water there isn't very deep, but Henry is a plump young person and every time he tried to get up he sank further into the mud. So Julia jumped in to save him, and in the excitement Kathleen slipped and went sliding and screaming down the rock into the lake. And then May had to jump in to save the lot.

This was the situation when Patrolman William Quilan heard the children screaming and the voice of May admonishing them to keep perfectly calm and declaring she would save them.

Quinlan dragged them out of the water one by one. Dr. Milligan then wrapped them in blankets and sent them to Flower hospital to thaw out. After getting dry they went home. But the Rooney family will eat no whale today.

YES, IT PAYS TO BE GOOD

HELENA, Mont. — Clean-up — then you'll be paid up!

That's the message Major E. D. Mossman, superintendent of the Fort Peck Indian agency, handed out to Indian wards of the government.

Mossman had $166,000 to be distributed among the Indians at the rate of $80 per capita. He published a notice which said:

"Payment will be held up until the towns on this reservation can assure us that no more gambling or booze will be permitted during the time subsequent to this payment. If you want the money disbursed in your town, clean it up!"

COUNTED IN CURIOUS WAY

The inhabitants of China are counted every year in a curious manner. The oldest master of every ten houses has to count the families and make a list, which is sent to the imperial tax house.

YES? HOW OLD WAS HE?

A man who recently died in Wheeling was rejected by a recruiting officer when he sought to enlist for the civil war because of his advanced age at that time.

BIG INCREASE IN EXPENSES

WASHINGTON—A million dollar annual increase in the cost of congress goes with the recommendation of the house census committee that the membership of the house of representatives be increased from 435 to 483 beginning March 4, 1923.

That means a cost of $20,000 a year for each added congressman. The increase faces a bitter fight in house and senate.

To offset criticism against the steadily increasing size of congress, the committee suggested that a limit of 500 members for the house should be fixed by constitutional amendment. The chief reason assigned for the increase is that "no state will lose a member under it."

In order to avoid reducing the representation of any state because of loss or slow growth of population—for that is admittedly the chief reason for any decrease—it is urged that additional members be allowed to twenty-five states. Membership from twenty-three states would be unchanged.

Congressman Louis Fairfield of Indiana, leader of the opposition, contends the effect of reapportionment on individual states should not be considered.

Ninety-seven per cent of Americans die without making a will.

PRAISES SYSTEM

SOUTHERN CALIFORNIA BEST SERVED OF ANY SECTION ON TRANSPORTATION

Southern California is the best served in transportation of any section in the country, according to B. W. Ridenour of New York City, who, according to his admission, "travels and that's about all." Mr. Ridenour says that the system of carrying passengers in California is by far the best he has ever seen.

"I had heard, of course, of your wonderful network of electric railways and was interested in them," he said, "but something I had not heard of was the way in which your highways are kept up and used as carriers for the public.'"

Mr. Ridenour says that there is no section that he has ever visited where there are big busses plying from big city to big city, from small city to small city, and from village to hamlet as in Southern California. He was so interested that he gathered a wonderful lot of statistics showing that thousands of persons travel in automobiles over the highways every day.

NOTICE TO CREDITORS

Estate of Anna Mabel Ireland, deceased. Notice is hereby given by the undersigned Executor of the Estate of Anna Mabel Ireland, deceased, to the Creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to the said Executor at the office of James F. McBryde, at 103-A North Brand Boulevard, Glendale, California, City of Glendale, California, County of Los Angeles, State of California, which said office the undersigned selects as a place of business in all matters connected with said estate, or to file them with the necessary vouchers, within four months after the first publication of this notice in the office of the Clerk of the Superior Court of the State of California in and for the County of Los Angeles.

Dated December 31, 1920.

HUNDRED MILLION FOR ROADS

WASHINGTON—Appropriation of $100,000,000 for public roads during the next fiscal year is proposed in a bill reported by the House Roads committee. The bill is a substitute for one by Representative McArthur, Republican, Oregon, which proposed Federal appropriations for four years. Members said the limitation was decided upon because they did not want to have it appear that Congress was attempting to tie up the incoming administration. Arrangements were made to call up the measure under suspension of rules and endeavor to put it through as a means of relieving unemployment.

MOUNTAIN OF PEACH STONES

A 500-ton mountain of peach stones was recently thrown upon the New York local fuel market as a substitute for coal. The stones were gathered by patriotic Americans in war time to be used in the manufacture of gas masks. They found a ready market at $1 a ton, and were distributed to the needy.

NEW SUBSTITUTE FOR MILK

A new substitute for milk is now made from the common peanut. It was first produced in a southern university, and so closely resembles its prototype that it turns sour and curdles. It produces buttermilk and can be made into cheese, but it still retains the peanut taste.

Only five of the United States have no workmen's compensation laws.

SPAIN SEEKS EXHIBITION

Manuel Ferrando, who has been twice a delegate from the Spanish government to exhibit in San Francisco and also in St. Louis and Chicago, is negotiating for the establishment of a permanent exhibition of the Spanish industries in the United States. Mr. Ferrando in an interview states that a permanent exposition of the Spanish industries in the United States will be of great importance inasmuch as Spain is producing many articles that are in great demand here and which can be bought 50 per cent cheaper than they can be manufactured here.

FAVOR OPEN SEASON ON DEER

Colorado ranchers are advocating an open season on deer for the reason that the deer run with the cattle and consume the hay intended for the steers.

SILK DRESS CAUSES FIRE

Static sparks, resulting from friction of the folds of a silk dress being cleaned in gasoline, caused a fire in a cleaning establishment in Bend, Ore.

MEETING COST OF GAS

CHICAGO—Genevieve Duffy, telephone operator, was on her way home. Such a pleasant gentleman stepped from an automobile and asked her if she had money. She said she had. He took it—$32, bowed and tipped his hat, then drove away. "It's for gasoline," he called back.

EXAMINE SYSTEM

LOCAL TREE PLANTING PLAN IS SUBJECT OF INQUIRY BY L. A. COMMISSION

G. Gordon Whitnall, secretary of the City Planning commission, Los Angeles, accompanied by three lady members, came out to Glendale yesterday to look over Glendale's tree-planting system and get pointers for a similar system for Los Angeles. They drove out Verdugo Road to see the oak trees set out by the city a few years ago, over many of the streets and then out to the park.

They were informed that since Frank Marek has been city forester more than 12,000 trees have been planted by the city. They were much impressed with what they saw and went home determined to see to it that more attention is paid to city forestation, which has been greatly neglected, they said.

RAT AND HUMAN POPULATION

Conservative estimates place the rat population of the United States on an equal with that of the human population.

STANDARD SETS OIL MARK

SAN FRANCISCO—Production of crude oil by the Standard Oil company in California for 1920 broke all previous records, the former high mark of 103,623,695 barrels established in 1914 being exceeded by 2,097,491 barrels last year, the company announced.

Despite the increased production, which was accounted for by the bringing in of a number of wells in the Elk Hills district of Kern county, it was necessary for the company to draw 8,240,052 barrels from its reserve and make heavy shipments of oil by-products from the mid-continent and Mexican fields.

December production of approximately 323,933 barrels a day showed an approximate increase of 12,851 barrels a day over November. Shipments during the year averaged 311,370 barrels a day.

DRIED FLOWER IS POWERFUL

Peyote, the dried flower of the mescal, a kind of cactus, is a powerful narcotic, with all the inherent dangers that are known to the use of narcotics. The Indians in the southwestern states use it in religious ceremonies but it is rapidly spreading to the north where the whites are using it.

SOME DIFFERENCE

RAIN MEASURING GUAGES BUT FOUR BLOCKS APART GIVE TOTALS NOT ALIKE

When The Evening News called up H. E. Bartlett yesterday to get the report of the rainfall, he remarked on the singularity of the fact, noted before in these columns, that there was distinct variation in the amount of rainfall reported by him and Mr. Preston, though the gauges with which they measure are exactly alike.

Though they live just four blocks apart, Mr. Bartlett at 347 North Brand and Mr. Preston at 330 North Jackson there is considerable difference in the amount of rainfall at the two homes.

Mr. Preston's record for this date last season is 7:45 inches and Mr. Bartlett's 6.99. Up to yesterday noon the latter's record was 6.87 and Mr. Preston's 7.33.

FLAME AND SPARK PROOF

Baled cotton may now be treated with a chemical compound which renders it flame and spark proof.

SPEEDY TYPIST CHALLENGES

NEW YORK—The speed artists that drive their typewriters through the sprints at the business shows at 60 miles an hour or thereabouts, never tried an endurance test, says Miss Agnes Clay, New York typist, who turns 100 sheets of 250 words or 25,000 words each and every day. Miss Clay issued a challenge today to any New York typist for an endurance test in which not only speed and accuracy but the added element of sustained effort would be considered.

Miss Clay in her work of typing manuscripts for the Cosmopolitan Magazine estimates that she has typed 2,888,000 words in the past two years. She says her work never becomes monotonous.

GASSED MEN BEING CURED

A Paris physician is treating gassed soldiers with gases of balsamic bactericide composition. This antitoxic gas is forced into the lungs penetrating those parts affected by poisonous gas, spreading slowly over the wounds and healing them. There is not a single gassed men that he has treated who has not been completely cured.

FIGHT FOR LAND

HALF BILLION DOLLARS IN PROPERTY IS STAKE IN CONTINUED BATTLE

BY H. R. HUNT
United Press Staff Correspondent

WASHINGTON—Half a billion dollars' worth of oil lands, apparently forfeited by the government to the Southern Pacific railroad through refusal of Attorney General Palmer to appeal a government suit to the supreme court, may yet be saved to the people.

A suit brought by private interests ten years ago, raising the question of title to the land, is still pending.

Now steps are being taken to press it to a decision. The attorney general may be directed by congress to interplead in this case.

A joint resolution, introduced by Representative John E. Raker of California, presents for congressional consideration the questions on which he believes the supreme court would sustain the government's title to the lands.

It is admitted that a patent had been granted the Southern Pacific covering the lands in question, under a grant voted by congress to induce the building of the Texas Pacific railroad in 1871.

However, the act specifically excepted "mineral lands" except iron and coal, giving the road the right to select other lands, not mineral in place of such mineral sections.

Because oil had not been discovered at the time the patents were issued, the railroad claims—and Palmer seemingly has agreed—the government forfeited its title.

Question Left Open, Is Claim

The supreme court, however, has not passed on the prime question involved, which Raker declares to be this:

"Is a patent, issued by an administrative officer of the government in violation of specific provisions laid down by congress, legal and binding on the government?"

Quick action by congress will be sought to avoid complications that might follow transfer of the lands by the Southern Pacific.

The railroad plans to have the oil properties held and operated by a distinct corporation, which it is organizing.

The situation has been laid before President Wilson and Secretary of the Navy Daniels, who is interested in the possibility of getting back the oil lands for naval fuel.

Daniels openly differed with Palmer on the latter's action in allowing the government's suit to be lost by default and will support the fight to reopen the case.

NUMBER MIXUP

UNUSUAL CONDITION IS FOUND ON NORTH CENTRAL WHEN PERMIT IS ISSUED

A building permit issued recently revealed a queer mix-up in house numbering on North Central avenue.

The permit was for a residence at 823, which one who crossed the Wash and saw Nos. 801 and 805, would think was outside the city. But 823 is really in the block between Burchett and Arden avenue.

The reason why numbers in 800 are found on houses above the Wash is that Central avenue has never been "reconstructed" since the change of the base line from First street, now Lexington Drive, to Broadway.

Even though the north part of Central avenue should elect to always stay out of the city the numbers should, officials declare, be harmonized for the sake of convenience, as has been done on all other streets thus situated.

EVE IS FIRST TO ADVERTISE?

Eve was the world's first advertiser. It was because she pointed out the excellent qualities of fruit that Adam and she found themselves outside the Garden of Eden. If Eve hadn't "boosted" the apple Adam would never have partaken.

These facts were pointed out by Sir Robert Horne in a speech at the opening of an advertising exhibition. The serpent, he said, was the advertising agent who knew his job well. He advertised his goods through Eve because he knew she had a "pull" with the public he was trying to reach, or in other words, poor old Adam.

Sir Robert failed to point out whether Adam ever repented of his response to the lure of advertisement—but he pointed out, nevertheless, that advertised articles are bound to be good, or no amount of advertising will sell them a second time. It is assumed that the advertised apple lived up to the reputation Eve had claimed for it and that Adam thereafter became an habitual apple-eater.

MATTRESS BURNS; GIRL SAVED

NEW YORK—Stabbed seven times Gladys Harrison lay screaming on a bed in her home while the mattress under her burned. Neighbors who heard her summoned the police in time to save her life.

A man giving the name of Antonio Checchia was arrested in the hallway of the building. He is held on suspicion of stabbing the woman, who, it was said, probably will recover.

An American committee of fifty-seven business men has been appointed to participate in the International chamber of commerce.

AMERICANS "JOLLY LOT"

NEW YORK—Puck, the god of humor, speaks the same laguage in America that he does in England. The Americans are a jolly lot even if they do have prohibition—and not all of them do. This is the decision of Gilbert K. Chesterton, noted British author, after two weeks of meeting Americans and addressing American audiences.

"The American audience I find very responsive—perhaps it would be more modest for me to say 'charitable,'" he said before starting west for another lecture. "I find the mass movement here much more marked than in England. By that I mean that when an audience laughs, it laughs as a whole, heartily and with spontaneity.

"I used to marvel at the way you Americans put over your Liberty loans. Now I understand. When you do things you do it with that 'all-together' spirit. It is so with your audiences.

"America is making more fuss about the short skirts than Europe, but the revolt of women against prudery is almost world-wide. As for me, I can forgive any tendency toward dress which is thoroughly feminine, but—those mannish creatures who wear stiff collars and the like, Heaven forbid!"

15,000 CHINESE DIE DAILY

NEW YORK—The mortality list during the next six months in the famine area of China will exceed the total dead in the world war unless the other nations, and particularly America, come to the rescue on a tremendous scale, according to Rev. W. A. Mather, Presbyterian missionary, who has just returned from China to his home in Caldwell, N. J.

Dr. Mather reports that more than 15,000,000 persons face the immediate prospect of starvation, and that 45,000,000 others are affected in the famine zone, which covers an area of 100,000 square miles. Already, he reports, the Chinese are dying at the rate of 15,000 a day.

Dr. Mather, who is co-operating with the church division of the American committee for China famine fund, appointed by President Wilson to raise money to meet the crisis in the far east, was in charge of the Presbyterian mission at Paotingfu, in the province of Chihli, one of the five states in the famine district. He declares that drought left the ground barren last fall, and that when he left the natives were subsisting on roots and leaves.

The silk manufacturers' union of Japan has suspended production for three months.

TELLS CONDITIONS IN NEAR EAST IN LETTER TO AUNT IN GLENDALE

Miss Sabra Claire Bradley Writes Interesting Details to Mrs. R. L. Holland, 209 Arden

Mrs. R. L. Holland of 209 Arden avenue is in receipt of a very interesting letter from her niece, Miss Sabra Claire Bradley, who is a worker with the Near East relief. The letter was dated Constantinople, November 27, 1920, and follows:

My Dear Ones at Home—Three whole letters at last! I knew when I came to Constantinople I'd surely hear. So the "tomes" did arrive and you know all the news from January to July. Besides the letters, Fulton papers also came. The boy who shines our shoes and makes the fires is learning English from those papers, so you had better caution the editors to be very choice in their use of our language.

I have two separate and distinct jobs. One is being secretary to the director of the Constantinople district. This not only includes Constantinople, but five outlying districts, and, as the director has to spend a lot of time in these districts, I have to hold down things while he is gone. This job lasts from 8:45 a. m. to 6 p. m. My usual job is having charge of a new personnel house which is largely for transients. Before 9 and after 6, I run this house and try to get it furnished. To be vulgar, I've certainly bitten off all I can possibly chew.

Gets Word of Defeat

These are exciting days in the Near East. Yesterday we got word of Wrangel's defeat. A Russian who was fighting in his army made his escape to Constantinople and told us all about it.

The Bolsheviks were led by two German generals and when Wrangel made his last stand in the neck of the Crimean Peninsula, the Bolshevik attacked him twenty-seven times before he fell. It was a real German attack. The men were intoxicated with liquor and doped with cocaine. There were guns turned on them in the rear to keep them from retreating. Of course, they used gas.

The refugees are fleeing from Sebastopol, 30,000 are due in here today. All we can do is to furnish beans, blankets and such supplies. Admiral Buratol is caring for 2500 wounded. The French will have the biggest burden as they recognized Wrangel's government. The Bolsheviks' plan now is to turn all their armies on Bessarabia, retake that from Roumania and reach Austria-Hungary, which is only waiting for them to turn Bolshevik. Germany will not turn Bolshevik, but will ally herself with them and France in the end will pay for the war.

Can Fight Indefinitely

Armenia, which was pushed to declare war on Turkey with a promise of help which never came, has had to make peace, losing her largest city—Kees. The Bolsheviks will probably go through Armenia to Persia and from there to India. There is no stopping them because their government is laid on the basis of war. They have plenty of arms and ammunition which they got from the Germans. Germany was supposed to have destroyed this, and they can fight indefinitely.

Kemal Pasha, head of the Nationalists, is said to have already allied himself with the Bolsheviks. A Greek army fighting the Kemalists about thirty miles from here was defeated two days ago and it is reported that Broussa is taken. That is one of our districts, and our director, Mr. Curt, is now there. If the report is true, the Armenians are being held, of course, and we are somewhat worried about Mr. Curtis, as he has been due for two days and failed to show up.

England Withdrawing Troops

It is just whispered that England would be willing to recognize Mustapha Kemal and give Constantinople back to the Turks to get her noble allies out of it. England is withdrawing her troops from here because she needs them in Mesopotamia, where there is organized revolt. Colonel Coombs, head of the N. E. R. is now in Samson. He started for a trip through the interior, but he is being held up in Samsom by the Nationalists. None of the Armenians are allowed to move. It is a pretty serious thing to hold the head of the whole N. E. R., but Kemal Pasha thinks, and justly, that the missionaries have united the Armenians against him.

Unfortunately, there are a lot of missionaries in our organization and that is bound to make trouble. What will be the outcome of all this I don't know, but things are certainly closing down all around us.

Called "Rotten Political Game"

Our noble (?) allies are playing a rotten political game over here. We blame Germany for not stopping the Armenian massacres during the war. You will be interested to know that our allies have permitted massacreing on a small scale for the past year and that 10,000 have just been massacred at Hudjin. Do you wonder that all the Armenians over here are beginning to think that all of Europe is rotten to the core just like Germany?

Sherwood Eddy gave an address yesterday at Constantinople Girls' college, in which he said that America was "almost as bad as Russia." That it was on the "verge of revolution or evolution" and he was going home to try to see that it was "evolution, not revolution." This world is certainly going mad. The conditions over here are quite hopeless. The Armenians are going to be absolutely wiped out, and the Turk, with his rotten policy of bribes and "backshesh" is going to be back in power all on account of the jealousies of the European countries. It is the same old story all over again.

Remarkable Celebration

You must be tired of politics, but we hear nothing else and see nothing else but that. Sometimes there are religious festivities which take our minds away from politics. Several weeks ago the Persians had a very remarkable celebration in an old home near Humit, our headquarters, in Stamboul. The persians are followers of Ali, the nephew of Mohammed.

Ali's two sons, Hassan and Hussein, were treacherously slain by their own people, so once a year the Persians do pennance for this. For 10 days they mourn, then on the tenth they have a great procession in which the men cut themselves to pieces with swords and beat themselves with whips. It is the most barbaric, horrible thing I've seen. I didn't believe it even when I saw it. I thought the blood streaming from them was all fake, goat's blood or something like that, until forty of them died.

In Persia, two men representing Hassan and Hussein lead the procession, and in the end are slain, but that is not allowed here in Constantinople. We are much too civilized for that.

Politics, Plan and Plot

Stamboul is the old Turkish section of the city. There you find polygamy, slavery, eunuchs, veiled women, men in long robes and turbans, minarets and domes and strange festivals. There the men sit for hours in coffee houses and discuss politics and plan and plot.

Pera, across the Golden Horn from Stamboul, is the European section. When you cross the bridge from Stamboul to Pera it is as if you went into another world. Stamboul is Asiatic in thought and custom, while in Pera you find the latest European fashions, churches, schools, newspapers and vice.

My work is in Stamboul and my house in Pera, so every day I cross the bridge from the old world to the new. It is a great rest to get out of the hustle and bustle of Pera into the shaded streets and lovely old mosque yards of Stamboul.

On Sunday I either go sight seeing or out to Constantinople college to see Gertrude Knox. There are such an awful lot of interesting things to see and study. The ancient Roman aqueducts, the old walls running from the Golden Horn to the Sea of Marmora, the cisterns which cover blocks underground and among whose stately Corinthian columns you row in a small boat, the old palaces of the Sultans, the churches built in the time of Constantine and some converted into mosques, and scores of other interesting things.

With work piling up and refugees pouring into Constantinople my plans for Jerusalem at Christmas are fading. If the Bolsheviks don't get here by Easter I may see it then.

This will not reach you very long before Christmas. I can imagine the dinners you will have and all the festivities. I'll be with you all in spirit.

With much love to all,
SABRA CLAIRE BRADLEY.

COST TO STATE

FINANCIAL REPORT MADE ON FIRST HALF LEGISLATIVE SESSION BY OFFICIAL

The first half of the session of the state legislature of the state of California cost $52,039, according to a report made by State Controller John S. Chambers.

Expenditures in the assembly totaled $31,455.20 and in the senate $20,583.80. The largest item was for salaries. In the assembly they amounted to $17,380 and in the senate, $8770.

The statement in detail follows:

For the senate: Contingent, $1,894.50; mileage, $1,942.30; salaries, $8,770; officers and clerks, $7,977. Total, $20,583.80.

For the assembly: Contingent, $2,080; mileage, $3,691.20; salaries, $17,380; officers and clerks, $8,304. Total, $31,455.20.

Full total, $52,039.

The report shows that from the constitutional allowance, the senate saved $3,023 and the assembly, $2,696. Provision has been made for spending these amounts in part during the recess.

MAY REPLACE SOLID COAL

A noted German engineer states that coal, under 200 atmospheres pressure, heated to between 540 and 720 degrees Fahrenheit, and mixed with hydrogen gas, becomes liquid. As the energy is greatly increased he predicts that in the near future it will replace the solid coal.

Six hundred women were executed in France for witchcraft in 1609.

SURVEY ON LABOR

NUMBER OF PERSONS NOW IN INDUSTRIES IS LESS THAN YEAR AGO, IS REPORT

The number of persons employed in industry the first of this month numbered 3,473,466 less than a year ago, the Department of Labor's employment service has just announced on the basis of a first nation-wide survey.

Director J. E. Densmore said this figure did not necessarily represent the number of persons actually unemployed, as it was quite possible some had found employment in agricultural or other pursuits not covered by the survey.

The figures represented a reduction of 36.9 per cent in the workers employed in industry as compared with last January. Michigan led in proportional reduction, with 82 per cent, and Ohio and Indiana followed with a reduction of 50 per cent each.

In reduction of employment San Francisco was first of the Pacific coast cities and Portland was second. Seattle had 7000, Los Angeles 7000 and Sacramento 5000. None of the other coast cities had as many as 5000, and the total for California, Washington and Oregon was 63,700.

In Automobile Industries

The largest percentage of reduction in employment in specific industries, 69 per cent, occurred in the automobile and accessories industries, and this was taken to account largely for the great reduction in employment in Michigan.

Second in the reduction of employes was the building trades, with approximately 52 per cent. A reduction of 35.5 per cent was noted in the textile and related industries, 35 per cent in leather and its products, and 32 per cent in lumber and house furniture.

Surveys made in 182 cities, the employment service said, showed that numerically the greatest reduction was in New York, where 234,243 were reported discharged. Chicago had a reduction of 86,000; Philadelphia, 70,000; Detroit, 160,000; Boston, 25,000; St. Louis, 49,350; Kansas City, 20,640; San Francisco, 13,000, and Portland, Ore., 10,000.

GRIFFIN, the Plumber
Who Knows How

$112.00—The new price for these fine fixtures

One 5-ft. rolled rim bathtub with nickel plated combination bath cock supplies and waste.

One 535½ lavatory, 2 basin cocks, index hot and cold nickel plated supplies and trap.

One vitreous china closet, tank and seat, each piece complete, ready to connect to rough plumbing.

Mr. Griffin figures large and small jobs with care and consideration, supervises the work himself, guarantees his work to be satisfactory. Let him figure your job.

BATTLEFIELDS ARE RECLAIMED

Reports from the American consul in Belgium show that at the end of the first nine months of 1920 about 61,775 acres out of 148,260 acres of war-swept soil had been put into condition fit for cultivation.

FIRST KIDNAPING POLICY

The first kidnaping policy ever issued by an American insurance company was recently made out to an oil man in Oklahoma. This man insured his three daughters from kidnaping, each being insured for $5000.

STYLES IN SHOES

RIOTS OF COLOR, JEWELS IN PROFUSION, RIBBONS AND METAL ON FOOTWEAR

By MARJORIE
Written for the United Press

NEW YORK—Spring shoes are more elaborate and gorgeous than ever before, although such a pedal state seems almost impossible in view of the confections of footgear that have tripped about this past season.

Shoe makers say that since, after long years in the attempt, they have convinced womankind that shoes must be as fragilely beautiful as gown or hat, they do not intend any slump in their propaganda. Thus, spring footwear showings in manufacturer display rooms are a riot of colored kid and fabric, metal, jewels, ribbons and composition.

Gray seems to be the big choice in color, as shoes follow suit and coat, and blue and gray is the big color feature in outer raiment for spring. There are many copper and red browns, however, and the usual novelty combinations.

Varied Trimmings Shown

Trimmings run rampant. A swirl of patterned perforations with an underlay of contrasting color and fabric is the big trimmings feature. For instance, a pair of bronze kid colonial pumps have an inch-wide band of oval perforations about the entire shoe. White kid is used as the underlay and white velvet bows flank the straps upon the tongue.

The revere effect is another new note in footwear. This style is shown in blue kid pumps, piped in white kid, with white straps that disappear under the turn-back reveres.

Gray suede perforated with a wide range of patterns and underlaid with black patent leather is a style much in the foreground, and black patent leather, trimmed with gay scarlet pipings of velvet, satin, or kid, is another reigning novelty.

Gay coloring and elaboration is given by patterned stitching that runs over strap, tongue, toe and shoe top. Such a unique model is shown in black patent leather with an intricate design in scarlet and white stitching. A wide tongue fringed at both top and bottom completes the bizarreness of the model.

Other Strange Effects Given

One-sided effects given by misplaced straps or slashings are also very nobby. Floral patterns outlined in narrow leathers of gay color are a new season's hobby also.

Evening pumps adhere to satin and cloth of gold or silver, although a combination of satin and metallic cloth is very popular. Very narrow strips of the contrasting material alternate. A huge composition or velvet flower takes the place of the old-time rhinestone buckle.

The vamp of the new shoes is medium. The toe is somewhat rounded and either the military or Louis heel is used. There seems to be a compromise between the American and French cut.

GET THREE ACRES

STANDARD OIL COMPANY HAS PROPERTY ON ROAD NORTH OF COLORADO STREET

The Standard Oil company, some weeks ago, acquired three acres on San Fernando Road, just north of Colorado, and is establishing there a wholesale station.

Large tanks for oil and gasoline will be installed and later a retail filling station, similar to the one at Broadway and Kenwood, will be put in.

A spur track will be extended from the Southern Pacific across San Fernando Road to the property so the big tanks can be filled directly from tank cars.

Clyde Newton swung his right fist and hit Arthur Thomas, a fellow-employe of the city electric light plant, at Fremont, Neb., on the point of the jaw, knocking Thomas several feet and fracturing his jaw, but saving his life. Thomas had taken hold of a plug which had been charged by a short circuit and could not break away.

The forty-five days' goose hunting season in Nova Scotia is closed, and, while exact figures are not available, the game commissioner at Halifax estimates that the total kill of moose for the year in the province is about 1250.

NOTICE THAT COPIES OF PROPOSED CHARTER FOR THE CITY OF GLENDALE MAY BE HAD.

Pursuant to the order of the Board of Trustees of the City of Glendale, public notice is hereby given that copies of the proposed charter for the City of Glendale prepared by the Board of Freeholders and filed with the City Clerk on the 12th day of January, 1921, have been printed in convenient pamphlet form, and that such copies may be had upon application therefor at the office of the City Clerk in the City Hall of the City of Glendale.

J. C. SHERER,
City Clerk of the
City of Glendale.

Composition Roofing Contractor, 714 N. Pacific Ave. Ph. Glendale 2031-R

DISASTER AFTER FAMINE

HANKOW, China—Atop the horrors of famine which have smitten the people of North China, comes the news of a new plague, known colloquially as the "Soldier Disaster." Briefly, it means that outlaw bands in the uniforms of the various conflicting armies of the north are "living on the country."

"They have descended on us like a swarm of locusts," one Chinese missionary said in description of prevailing conditions. Pay has been an unknown quantity among the northern armies for many months. Their only revenue has been exacted from the countryside. They have established tax systems of their own and have enforced collections by hangings and torture.

The people of the famine districts, reduced to a diet of grass and herbs, are panic stricken under the military menace. Recently a band of soldiers looted the city of Ichang, destroying Japanese property and intimidating the Chinese.

A Berlin newspaper announces that preparations have been made by the German aniline syndicate to erect nitrogen plants in the United States and Japan, and directors of the syndicate have begun negotiations with the two governments.

DID YOUR ROOF LEAK?

Better have it repaired or a new roof put on before the next shower. And when the rains are over you'll want to brighten up by painting the house, garage and other outbuildings, and "fixing" things up generally.

BE WELL

You lost your health gradually by a process of breaking down and change in the bodily tissues extending over a period of years? Perhaps. You can't expect to regain it in a day. The return to health must come gradually also—by a growth and building up engendered by rest, proper living, proper diet, fresh air, healthful surroundings and simple treatments—by a reversal of your habits.

The Glendale Sanitarium and Hospital

operates on this principle

If you have lost your health, try a course of treatment here. We can do you good

Our Dining Room

Is open to the public and is patronized and appreciated by those who like a wholesome and varied vegetarian diet.
